FLAVOURFAST™ Bakes, Broils, and Roasts

The Tefal High-Speed, FLAVOURFAST Oven has two great advantages over the conventional oven: it's twice as fast and it preserves all the natural juices and flavor of the food through its unique steam feature! FLAVOURFAST is almost as fast as a microwave oven for many foods but it does it in a way no microwave can - browned and crisp on the outside, tender and juicy on the inside. The oven uses a combination of steam and radiant energy for faster, high-cooking. And it's perfectly safe, too. Features: 60 minute timer, temperature control, heavy-duty 12-1/2" x 11" moveable rack, recipe book, non-stick heavy gauge aluminum baking pan and roasting pan with rack. Food looks appealing, tastes delicious and retains valuable vitamins and minerals since it can't dry out. Overall size: 17-3/4"W x 14-7/8"D x 11-1/4"H. Weight: 24 lbs. 4 oz.

Tefal FLAVOURFAST Oven model #39953 . . . . . $225.00

A Mini Wine Cellar For Every Home

This attractive wine cellar will pamper your wine selections for your ultimate taste satisfaction. Store your wine in the recommended horizontal position, keeping corks moist and preventing air from entering the bottle. It maintains temperature and humidity level. It features a "church" style tinted acrylic panel which lets you view inside and protects wine from the adverse effects of strong light. Its large capacity storage area has 4 racks and a bottom shelf to hold up to 24 bottles. The handsome oak color with brass like accents will blend with any decor. Size: 19-3/8"W x 19-3/8"D x 25-1/8"H. Weight: 50 lbs.

Sanyo Wine Cellar model #SR-24 . . . . . $319.99

Mighty OJ® The Classic Juicer

A functional sculpture for the home. The Mighty OJ brings back the days of fresh, hand-squeezed orange juice in a contemporary, hi-tech design. Compared with electric juicers, Mighty OJ is quiet, easier to use, clean, and squeezes sweeter juice—free of bitter skin oil. All metal construction with no breakable plastic parts. Powerful rack-and-pinion gear system. Also ideal for lemons, limes and grapefruits. Colors: White or Black baked enamel finished with polished chrome head and handle.

Microphoneless Digital Blood Pressure Monitor

The MB-550 uses the latest, state-of-the-art microphoneless system (oscillometric method) to measure your blood pressure and pulse rate. This method measures your blood pressure by detecting small pressure oscillation wave forms in the cuff casued by your pulsating artery. The microphone used by the Auscultatory method to detect Korotkoff sounds is eliminated. Troublesome, precise cuff positioning is no longer required for reliable and accurate measurements.
It's fully automatic. Blood pressure/pulse rate measurement occurs after cuff inflation. It features an easy-to-read large LCD display which automatically shows blood pressure and pulse, auto-power-off system saves battery life. Comes with electronic monitor, adult cuff and operation manual. Uses 4 "AA" batteries (not included).

Sharp Blood Pressure Monitor model #MB-550 . . . . . $49.95

model #CU-6 . . . . . $69.95

Scarecrow™ - A Crime Deterrent

The Scarecrow is a precision, stainless steel replica, just like the most popular key operated, lighted alarm controls. It helps frighten away burglars, thieves, and vandals before they break-in your doors and windows.

It mounts instantly next to entry doors - no wiring no cutting. Working keyswitch controls bright flashing lamp to indicate "System On". Comes with professional alarm warning decal, two brass keys and mounting hardware. It runs on 2 "AAA" batteries not included. Treat your Scarecrow like a real security system. How it really works is your secret. The Scarecrow has a tublar lock with round key design and dual LED's (green and red, only red illuminates). Size: 1/2"D x 4-1/2"H x 2-3/4"W.

Scarecrow model #SB-24
$27.50

SENSAPHONE™ HOME MONITORING SYSTEM

MODEL SC-145

OUR PRICE $199.00

DESCRIPTION

Sensaphone answers a basic need. Now you can protect your home, your vacation cabin, the security of your office...or virtually any property you own...with a Sensaphone System. Locks and alarms are important but limited. Having a Sensaphone System monitoring your property when you're away is the next best thing to being there. What the Sensaphone System does. Say you're away from home. A fire breaks out and your smoke alarm goes off. Who hears it? The Sensaphone does. Automatically, and in sequence, it can phone you, your office, a neighbor, or a relative until its warning message is received. Now the person receiving the message can elert the fire department and save the house. The Sensaphone continuously monitors major enviromental conditions. Connected to your telephone, this system is continuously alert for power failures, excessively high or low temperatures, unusual sounds...and three other conditions of your choice. If alarm conditions develop, the system will automatically dial the numbers you have entered, until answered. When answered, the Sensaphone talks to the receiving party. It identifies itself, gives the time, says exactly what's wrong, then switches on its built-in microphone so unusual sounds, if any, can be heard. The microphone also enables you to listen to sounds in your home while away. Just telephone the system and it will report and let you listen to the room sounds. Keeps working, even if there's a power failure. Autometically dials up to 8 numbers. Easy to install.
Size: 8-5/8"L x 7-5/8"W x 2"D.

SUPERFONE AUTOMATIC CALL DIVERTER

TRANSFER ANY IN-COMING CALL TO ANY OUT-GOING NUMBER YOU WISH

MODEL TA-220

OUR PRICE $139.90

DESCRIPTION

Expecting an important call and you just can't be in two places at the same time? Now you don't have to be! With the new SuperFone Automatic Call Diverter you can receive a call at any location you choose to be. When a recorded message just won't do and the personal touch is a must, use the Call Diverter to service you. The Call Diverter requires two line service, one as en in-coming line, the other as en out-going line. Simply program in the telephone number of the place where you will be located. The Call Diverter will receive your in-coming call and transfer it to you at the pre-programmed number. It feetures a timer which you can choose to set for 4 minutes or 16 minutes or not at all. Once a call is diverted to you, you become the initiator of that call, (not the original party), and will be charged as such. The timer allows you to monitor the time spent on the call and will clear the line when the alloted time is up. It is switchable from tone to pulse dieling. It can be placed on a desk or wall mounted. Size: 8"L x 1-1/2"H x 5"W.

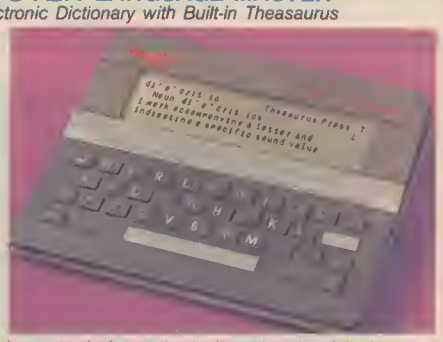
FRANKLIN COMPUTER LANGUAGE MASTER

Revolutionary Hand-Held Electronic Dictionary with Built-in Theasaurus and Spelling Corrector

MODEL LM-2000

OUR PRICE $199.00

SPECIAL!



The Language Master provides definitions for each of the more than 80,000 words in its list. The Merriam-Webster® Collegiate® thesaurus has 35,000 entry words and returns approximately 450,000 synonyms. Since synonyms exist for multiple senses of some words, definitions of these different senses are included for clarification. Every word in the dictionary is shown with the correct hyphenation points. The Language Master has a standard typewriter keyboard layout end the large custom 4-line, 160 character LCD has user adjustable contrast. It contains the advanced features of the new Spelling Ace including the powerful phonetic spelling corrector and crossword puzzle assistance. An indispensable tool for writers, students, word game fans and all word lovers in general. Size: 7" x 5" x 1½". Weight: 8 oz. Uses 4 AA betteries not included.

FRANKLIN COMPUTER POCKET WORDMASTER

MODEL WM-1200 OUR PRICE $99.95 ***NEW!***

It's a lot faster than a regular thesaurus, it's a lot smaller and, above all, it's a lot more fun to use. It's the Franklin Pocket Wordmaster™ — the most comprehensive electronic thesauras, and fits in your pocket. With the Franklin you can always find the perfect word. It contains over 470,000 synonyms for over 35,000 entry words from Merriam-Webster's® Collegiate Thesaurus. What's more, it corrects the spelling of over 80,000 words and plays a variety of entertaining games including hangman, anagrams, Jumble, Franklin's Deduction, and helps out with crosswords and Scrabble® . The thesaurus definitions give you parts of speech for your entry word. And synonyms are returned in the same inflected form as the word you enter. Additional features include: 16-character dot matrix LCD display with contrast adjustment, easy-to-use keyboard, ajustable skill levels for game playing, automatic one-touch scrolling, automatic shut-off, carrying case. Size: 5" x 2-7/8" x 5/8". Weight: 3-1/2 oz.

FRANKLIN COMPUTER SPELLING ACE

MODEL SA-98

OUR PRICE $49.95

EXTRA SPECIAL!

The Spelling Ace is an electronic speller and word list maker with a built-in lexicon of over 80,000 standard Americen English words. The user has only to enter a word as it sounds and even if it's misspelled the Spelling Ace will still display the correct spelling! Another important feature is 'Prefix' spelling. Simply enter 3 or 4 letters of a word, and a list of words beginning with those letter will be displayed. You can enter ?'s in place of unknown letters and scroll until the appropriate word appears. It's popular with such word games as Scrabble® , Ghost, Hangman, Wheel of Fortune, and crossword puzzles. Size: 6-1/2" x 4" x 1"

SPELLMASTER MODEL SA-103 $79.95

Enhanced version of the Spelling Ace, contains an advanced electronic spelling corrector and over 80,000 words. Plays hangman, electronic lotto, scrabble, jumbleword, dice and more!

PSION ORGANISER II™ XP/CM SHEET

The First Truly Personal Computer!

MODEL CM/920-000 8K RAM Internal Memory

OUR PRICE $170.00 ***NEW!***

MODEL XP/910-001 32K RAM Internal Memory

OUR PRICE $240.00 ***NEW!***

The Psion Organizer II is an incredible, hand-held computer that remembers the who, what, where, when of your hectic schedule. It replaces diaries, appointment books, phone/address books, calendars, calculators, memo pads, note books... just about whatever you use to record important information at home, office or business trip. Just like a desk-top computer The Organizer II has the equivalent of two disk drives—tiny solid-state memory units called "Datapaks" (optional). These perform the same fuction as floppy disks, require no power backup and keep information safe even when removed. The Organizer II can be directly connected to any home or office PC's, printers and telecommunication devices, through a RS232 interface, creating a wide range of additional benefits and applications.

SPECIFICATIONS

Display: 2-line x 16 characters, dot matrix LCD. **Keyboard**: 36 keys, audible click, auto-repeat. **Internal Memory**: (CM): 32K ROM, 8K RAM. (XP): 32K ROM, 32 RAM. OPL language and applications software. RAM: 8K, 32, CMOS used for personal data storage, diary appointments and programs. 1K can store 1,024 characters. **Mass Storage**: 2 slots for program & Datapaks. **Mass-Storage Datapaks**: Solid-state plug-in memory units. Maximum capacity 64K (CM), 128K (XP). Up to two can be present at the same time. **Interface**: 16-pin slot for optional peripherals. **Power**: Standard 9V alkaline battery (not included). **Size**: 5.6"L x 3.0"W x 1.1"D. **Weight**: 8.8 ozs.

BP AUDIO VIDEO COLOR PROCESSOR • *IMAGE EHHANCER COLOR PROCESSOR • STABILIZER*

STEREO COMPATIBLE with STEREO INPUTS & OUTPUTS

MODEL V-1895 OUR PRICE $169.95

CABLE KIT HOOK-UPS

Model	Our Price
V-181 Cable Kit. For Hook-up of 2 VCRs. Consists of: (1) F-3F & (6) V-3606 cables	$11.75
V-182 Cable Kit. For Total Hook-ups 5 VCRs. Consists of: (1) F-3F & (15) V-3606 cables	$27.50

- Stereo Ready: Has stereo inputs and outputs.
- Audio Noise Reduction: Reduces annoying tape shrill and high frequency static.
- Image Enhancer: Restores sharp detail and definition to pre-recorded tapes.
- Distribution Amplifier (Avoid Signal Loss):Can be used with one VCR or up to 5 VCRs (1 Master (tape player), 4 Staves (recorder VCRs). This allows you to make 4 one hour recordings in one hour. Great for Multiple Copies.
- Stabilizer: Reduces picture roll and jitter caused by copy guarded tapes.
- Color Processor: Amplifies off color and washed out images obtained by camera recordings photographed in poor lighting conditions.
- Corrects tapes that have single color dominance. • Restores life like image lost in Projection TV's.
- Extends color, hue and brightness for more life like copies.
- RF Modulation: Allow direct hook up to antenna terminals of TV set. Allows Video Cameras and other Video output devices to be hooked to a TV set instead of a monitor. Also allows enhancement of video tapes in ptay back mode.
- Bypass Control: You can compare instantly between original and processed signals.
- Mono-Color Switch: Allows quick comparison of B&W (monochromatic signals) and processed color signals. Detail on images is sometimes easier to obtain in the Mono (B&W) mode.
- Luminance Meter: Monitors luminance levels to avoid overloading distortion of video signals.
- Gain Control: Acts as a variable video fader and adjustment signal level for best luminance.

SPECIFICATIONS

Power Requirements: 12VDC, 400mA. Comes with 110VAC adaptor. **Color Subcarrier:** 3.58 MHz. **Input: 1-Video (RCA connector) 1Vp-p. 2-Audio (RCA connector) 1-2Vp-p. Output:** 4-Video (RCA connector) 1Vp-p. 8-Audio (RCA connector) 1-2Vp-p. 1-RF (CH-3/4 65dBuV Min.) (75Ω F connector). Size: 14-3/4"W x 6-1/4"D x 2-1/2"H.

BP COMPACT VIDEO SWITCHER

VIDEO LINK REMOTE XTRA-LINK

MODEL 170 OUR PRICE $39.95 SPECIAL!

It's like having an extra VCR or cable box—XTRA-LINK ends the endless walk between rooms. No other video accessory available today offers as much added control and convenience. It's common to feed video signals through coaxial cables from one room to another. But as everyone knows, the control tape, disc or channel selection is still located with the video com ponents in the main viewing room.

XTRA-LINK provides full function remote control for any kind of remote controlled video component regardless of location. Once XTRA-LINK is installed on a TV—for example, in a bedroom—total control of VCR, Video Disc or Cable Selector is possible by simply using the hand-held wireless remote controller. No matter how far away the components are located in the house, you can stop, start, fast forward, or perform any function available on the controller.

BP VIDEO AND AUDIO ENHANCER

MODEL V-1850 OUR PRICE $28.50 ***SPECIAL!***

• Enhances stereo or mono. • Built-in Dubbing Cables.

This device can connect two VCRs for duplicating video tapes. Built-in enhancer boosts video and audio signals so as to prevent any loss at all. The BP V-1850 will produce the dupe to be as good as the original.

RABBIT DOUBLE PLAY

Watch 2 Channels At The Same Time With Your Existing TV

MODEL DP-5000

OUR PRICE $169.95 *SPECIAL!*

DESCRIPTION

DOUBLE-PLAY gives your television set e "screen- within-e-screen"—so you cen wetch two channels at the same time.

If you're a sports fan, you could see two games on screen at the same time. If the action heets up on the smaller screen, just switch pictures et the touch of a button on the remote control to get e bigger view of all the excitement.

You can freeze the picture in the smeller screen to capture a really spectaculer play.

It's great for the fans of the talk- shows, day and nightime soaps, weekly series, movies in the same time slot.

See what's on other channels without interrupting what you're wetching! You can scan through other chennels on the smaller screen. The system will scan automatically or back and forth between any two channels you select.

And DOUBLE-PLAY comes with its own wireless remote that lets you conveniently control each function: Scen channels, switch pictures, freeze freme...even move the smaller picture from one corner of your TV screen to another. The DOUBLE-PLAY must be used in conjunction with a VCR

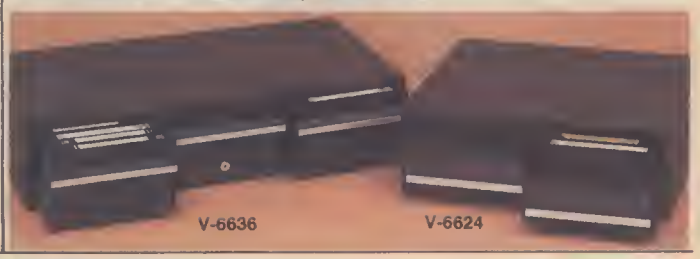
- Stores 24 VHS or BETA cassettes. • Unlimited mounting. • Size: 17"W x 15-1/4"D x 5-3/4"H.
- Each drewer holds 12 video cassettes to keep them safe end clean.



BP STABILIZER/IMAGE ENHANCER/ RF CONVERTER/VIDEO FADER/ 2-WAY DISTRIBUTION AMPLIFIER

ALL IN ONE PROCESSOR FOR VCR TAPES

MODEL V-1880 OUR PRICE $99.00

Model	Our Price
V-181 Cable Kit	$11.75

Consists of: (1) F-3F end (6) V-3606 cables

Dimensions: 13¼"W x 6¾"D x 2¾"H

The model V-1880 is one of the most versatile video processors on the market today. It contains five units in one. The V-1880 Video Processor can be used as a stabilizer, image enhancer, video to RF converter, video fader for professional fade in and fade out scenes and a dual output distribution amplifier.

VIDEO PROCESSOR FUNCTIONS

Stabilizer — Place stabilizer switch in 'ON' position. The lock control will correct the entire range of copy guard distortion such as jitter, vertical roll or a black bar travelling through picture. With the lock control fully counterclockwise, slowly turn it clockwise until the picture locks vertically or the black bar disappears. If the picture occasionally drifts vertically or a stationary black bar appears, turn control further clockwise. If the picture occasionally jitters vertically, slightly adjust the tracking control on your VCR. If that does not help, then try turning the lock control slightly counterclockwise. A stable picture will be obtained on about 1/4 of the controls range, but it is best to keep it near the counterclockwise end of this range. Once set for a given type of tape, further adjustment should not be required.

Enhancer — The enhancer function is controlled by the Detail control. Minimum enhancement is in the full counterclockwise position. The Detail control will let you attain best picture for your own preference. Rotate clockwise until visible grain develops in the TV picture coming from the recording unit. Reduce gain control until picture is sharp and clear. Image Enhancer effectiveness will vary depending on the source material. The better the source material the greater the possible improvement. On the other hand, enhancement of very poor quality material will produce minimal results. You cannot expect a great deal of improvement from a low quality source as a third generation six hour tape.

RF Converter — The RF Converter allows your TV set to receive video and audio signals from your image enhancer, guard stabilizer, video camera, computer, VCR, etc. The outputs of many video components cannot be directly hooked up to the VHF antenna terminals on your TV set. This problem is solved by utilizing this feature.
The direct video signal from any video component is can be fed into the V-1880 and converted to a usable RF signal that can go to your TV antenna terminals.

Video Fader — This function can be used to produce professional fade ins and fade outs. Use it to make gradual transitions from full video to black and back to full video. To fade out, simply place fader control in the 'OUT' position and the V-1880 will automatically perform a fade out function. To fade in, simply place fader control in the 'IN' position and the V-1880 will automatically perform a fade in function.

BP IMAGE ENHANCER

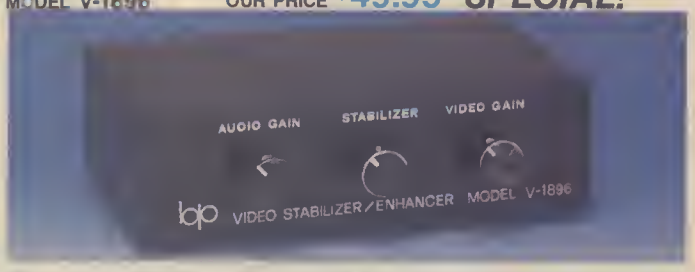
MODEL V-1860 OUR PRICE $39.95 ***SPECIAL!***

Dimensions: 8"W x 6½"D x 2¼"H **CABLE KIT** . . . . . **$10.50** Contains: 6 V-3606

The Model V-1860 Image Enhancer will dramatically improve the performance of video cameras and VCR's (off-the-air or second generation recordings), by compensating for deterioration of detail and sharpness. The detail control increases enhancement by improving the image sharpness, making detail more intense and flesh tones more natural. The gain control reduces snow and other low level luminance-noise brought up by too much enhancement. The gain control will also tune down the video signal eliminating excess signal which causes buzzing and distortion. Both detail and gain controls are inter-related. Adjustment of one can slightly effect the other.
For use with two slave VCR's, simply connect the V-1860 in line between your camera or master VCR. The output of the V-1860 Image Enhancer has a video output. This video output cannot be directly attached to the antenna terminals of your TV set. Attachment requires the use of a V-1885 video to RF Converter.
The V-1860 Image Enhancer includes a video distribution amplifier with two video outputs, allowing you to make two copies at once without loss in signal level.

BP ALL GUARD STABILIZER with VIDEO and AUDIO ENHANCER

MODEL V-1896 OUR PRICE $49.95 ***SPECIAL!***



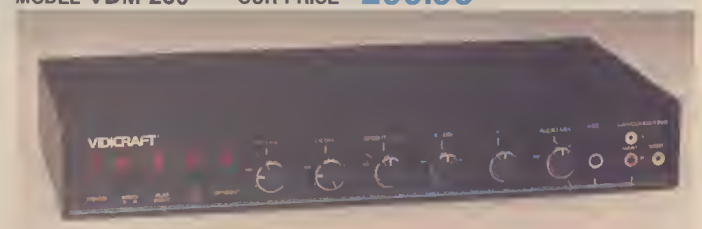
Dimensions: 5½"W x 4"D x 1¾"H **CABLE KIT** . . . . . **$10.50** Contains: 6 V-3606

The Model V-1896 will stabilize and remove jittering, rolling, and flashing (picture goes from bright to dim) from copyguarded video tapes. The audio section will compensate for low level audio tracks by adjusting gain to a usable level. This unit will work with older type copyguard and the very latest types of copyguard. This unit is designed for personal veiwing of prerecorded video tapes. It is not intended nor should it be used for copying prerecorded program material as this may constitute a violation of existing copyright laws.

VIDICRAFT VIDIMATE™ Home Video Production System

The Perfect Companion For Camcorders

MODEL VDM-200 OUR PRICE $299.95 ***NEW!***



VidiMate is the all-in-one system for home video production. Sharpen and enrich all videos during editing and playback. Add narration or background music. Make exceptional copies. All in one easy operation.

FEATURES

- Designed for use with all popular formats, including VHS, VHS-C, Beta end 8mm.
- Opticon™ circuitry and individual controll allow fine adjustment for peak picture quality during recording and playback of videotapes, and viewing of live, off-the-air, videodisc or video-camera pictures.
- Split screens allow before and after comparisons.
- Front-panel camcorder and microphone inputs make set-up fast and easy for home movie upgrading, editing, and copying.
- 2 selectable video/audio inputs permit connection to two sources and switching between them during recording or playback.
- 4 video/audio outputs send picture and sound to any 4 separate devices with no loss of video quality or audio levels. Make up to 4 identical copies at the same time.
- Other control include: Power: With LED indicator, Video 1, 2: Selects video input source, Auto Fade: Automatically fades audio and video, Outline: Improves image outline, sharpness, Detail: Enhances image texture, Brightness: Controls brightness of picture, Color: Controls color intensity, Tint: Adjust red to green ration, Audio Mix: Allows use of two audio sources simultaneously, Mic: Microphone input for adding narration or music, Camcorder In/2: Easy-access input jacks for camcorder or VCR signals.
- Power Requirements: 115 VAC, 60 Hz. • Power Consumption: 9 watts.
- Inputs: 2 video, 2 stereo audio, 1 microphone. • Outputs: 4 video, 4 stereo audio.
- Size: 15"W x 8"D x 2½"H. • Weight: 5 lbs.

SIMA VIDEO SOUND MIXER

MODEL SSM OUR PRICE $56.50 **NEW!** ***Video Tape Audio Mixer***

FEATURES

- Add music from any home stereo or portable player.
- Monitor the final soundtrack on your TV.
- Dynamic omni-directional microphone.
- Individual volume controls for each sound input and the original sound.
- Operates on one 9V battery (not included).

DESCRIPTION

Produce creative home video tapes with the Sima Video SoundMixer. This easy to use audio mixer allows you to add background music and/or narration while transferring your tepe without effecting the original soundtrack. The SoundMixer is very simply installed between the camcorder (or VCR) playing the tape and the recording VCR. The volume level of each input, as well as the original soundtrack, can be raised and lowered—even eliminated. SoundMixer comes complete with a high fidelity onmidirectional microphone and connecting cables.

- Hand grip included for off-camera lighting.
- Accepts barn doors.

VCR / CAMERA POWER SOURCE

MODEL VP-2002
OUR PRICE $32.50

- A compact, lightweight power source for all portable VCR/camera combinations.
- Solid-State fully regulated ultra clean power with auto-reset over-voltage/short-circuit protection device.
- Designed specifically for use with VHS & Beta format portable video recorders.
- UL & CSA approved.
- Push cigarette lighter type plug in and operate.

HOFTRONICS 6.5AH 12V LEAD ACID PANASONIC RECHARGEABLE BATTERY PACK

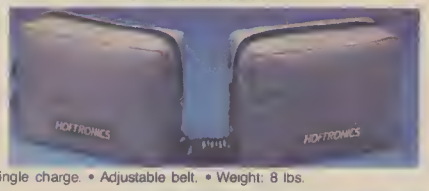
MODEL PP-30
OUR PRICE $59.00

- 6.5AH, 12V lead acid Panasonic battery.
- Up to 7.5 hours operation on a single charge. • 110/220V charger.
- Foam padded all weather cordura nylon case.
- Adjustable/Removable strap for use over the shoulder or attached to belt.

HOFTRONICS 10 AMP BELT POWER PACK

RECHARGEABLE LEAD ACID BATTERY PACK

MODEL PP-40
OUR PRICE $74.95



FEATURES • **AC charger included.**
- 10 AH, 12v lead acid battery pack in foam-padded all-weather cushion cordura nylon case.
- Up to 10 hours operating time on a single charge. • Adjustable belt. • Weight: 8 lbs.

HOFTRONICS NICAD POWER PACK

RECHARGEABLE NICKLE CADMIUM BATTERY PACK

MODEL PP20-N **OUR PRICE $119.95**

- 4.4 AH, 12v nickel cadmium battery pack in foam- padded all-weather cushion cordura nylon case.
- Up to 6 hours operating time on a single charge.
- Long life span —can be charged and discharged up to 1500 times.
- **AC charger and Shoulder Strap Included.** • Weight: 3 lbs.

VCR - POWER ADAPTOR CORDS: For connecting portable video recorder to any power supply, one end has standard cigarette type plug, other end custom fit for recorder.

UNOMAT AC/DC MINI QUARTZ VIDEO LIGHT SYSTEM

MODEL LX-800LP
OUR PRICE $64.95

FEATURES
- High-Tech Pro look.
- Stay cool air-flow design.
- Powerful quartz halogen lamp.
- Detachable extender with shoe lock.
- Convenient 16 ft. AC cord.
- Ultra compact and lightweight: weighs only 4 oz.
- Made in West Germany.
- AC/DC System includes: 150W AC lamp, 100W 12V DC lamp, AC/DC conversion plug adaptor.
- Angle of coverage: 44° approx. • Color Temp.: 3,300°K.

SIMA SOUND CATCHER *Wireless Remote for Video Cameras*

Catch the Sound Where the Action Is!

MODEL SVM
OUR PRICE $79.95

SoundCatcher catches the sound where the action is and adds a new dimension to your home video productions. Clip the SoundCatcher microphone to the subject being taped and pick up the sound at the source, not just at the camera.
The lightweight receiver attaches easily to any video camera or camcorder and records without wires—up to 200 feet away—giving a realistic, professional touch to birthdays, sports events, weddings, lectures. Video Camera Not Included.

AMPLIFIERS

BP ELECTRONICS, INC.® UHF BOOSTER/DISTRIBUTION AMPLIFIER

MODEL DA-442 OUR PRICE $32.00

- 1 Input, 2 Outputs. • Gain: 15 dB per output total 30 dB. • Impedance: 75 Ω input. • Bandwidth 470 — 890 MHz.
- Noise Figure: 6 dB. • Power Supply: 117VAC 60 Hz. • Size: 5-1/4"H x 3-1/4"W x 1-1/2"D.

CABLE TV DISTRIBUTION AMPLIFIER

For Midband, Superband and Hyperband, Plus F.M. • High Gain Low Noise!

MODEL DA-443 OUR PRICE $32.00

- Gein: 15 dB. • Bandwidth: 50-500 MHz. • Flatness ±0.5 dB. • Noise Figure: 5 dB. • Power Supply: 117 VAC 60 Hz.
- Impedance: 75 Ωinput, 75Ω output. • Max. Input: 28dBmV (54 channel), 42dBmV (7 channel). • Size: 4-3/4"H x 3-1/4"W x 1-1/2"D.

75 OHM VHF/FM DISTRIBUTION AMPLIFIER MODEL DA-447 OUR PRICE $32.00

This high input, high output 75 Ω distribution emplifier was designed for home systems or as a post amplifier following other equipment to obtain higher output levels. It is an excellent choice for commercial systems in garden apartments and townhouses. Easily connects antenne to input, TV to output.

SPECIFICATIONS

Output Capability: VHF 41 dBmV. **Bandpess: 50-300 mHz. Gein:** 11 dB. **Power Source:** 117 VAC 60 Hz 2.3 watts. **Size:** 5-1/4"L x 3-1/4"W x 1-1/4"D.

75 OHM MINI-AMP VHF/UHF DISTRIBUTION AMPLIFIER MODEL DA-448 OUR PRICE $32.00

This is a high input, high output 75 Ω distribution amplifier designed for home systems or as a post amplifier following other equipment to obtain higher output levels.
This is a good choice for commerical systems in garden apartments or townhouses. Connects easily to antenna input TV to output.

SPECIFICATIONS

Output Capability: VHF 47dBmV, UHF 48dBmV. **Gain:** VHF 16dB, UHF 9dB. **Bendpass:** VHF 54 to 88 MHZ†, 108 to 300MHz, UHF 470 to 890MHz. **Power Source:** 117 VAC 60Hz 3.5 watts. **Size:** 5-1/4"L x 3-1/4"W x 1-1/4"D.

BLONDER-TONGUE STARFIRE SERIES

MODEL DA-475 U/V
FOUR OUTPUTS
OUR PRICE $59.50

MODEL DA-475 V
FOUR OUTPUTS
OUR PRICE $49.50

MODEL DA-4300 U/V
FOUR OUTPUTS
OUR PRICE $54.50

MODEL DA-4300 V
FOUR OUTPUTS
OUR PRICE $44.50

- High input capability combined with low noise. • Amplifies four TV's/FM sets.
- Models eveileble for ell applications (VHF/FM, UHF/VHF/FM — 75Ω and 300Ω).
- Petented ICEF circuit for extra wide VHF dynamic range.

Model	Description	Input Capability (dBmV)	Noise Figure (dB)	Gain (dB)	Input Ohms	Output Ohms
DA-475 U/V	For 75Ω coax cable. All channels VHF/UHF thru CH 8 & FM	35 (VHF) 30 (UHF)	4.6 (VHF) 4.5 (UHF)	7(VHF) 10 (UHF)	75	75
DA-4300 U/V	All VHF/UHF (14-83) channels plus FM 300Ω twinlead input & outputs	35 (VHF) 28 (UHF)	5.5 (VHF) 5.7 (UHF)	6 (VHF) 9 (UHF)	300	300
DA-475 V	CH 2-13 & FM amp. with 75Ω coax cable input & outputs	35 (VHF)	4.6 (VHF)	6 (VHF)	75	75
DA-4300 V	300Ω input & outputs. Amps VHF (2-13) & FM.	37 (VHF)	5.6 (VHF)	5 (VHF)	300	300

VHF/UHF DISTRIBUTION AMPLIFIER

MODEL MUVB-25 OUR PRICE $74.95
• Output Capability (dBmV): VHF=50; UHF=48.
• Gain: VHF=27dB; UHF=29dB.

This is e professional quality emplifier for large homes and small commerical VHF and UHF on-chennel MATV systems. Excellent for TV showrooms when demonstrating UHF in addition to VHF channel performance. Provide low-cost CATV midband amplification for premium channel distribution. Full UHF renge to 890 mHz - ideal for translator reception. Switchable FM band stop filter eliminates TV interference from strong local FM stations.

BLONDER-TONGUE GALAXY PREAMPLIFIERS

ALL CHANNEL! • UHF/VHF/FM • MAST MOUNTED

MODEL 5120
15-20 dB Gain
OUR PRICE $65.00
All channel emplifier. Accepts single 300Ω UHF/VHF input. Single output.

MODEL 5123
15-20 dB Gain
OUR PRICE $65.00
Ultra high performance all-channel amplifier for lightning prone areas. Single UHF/VHF entenna input. 75Ω output.

A complete New Look Line of superior performance rated mast mounted per emplifiers for any home installation requirement. Galaxy units feature modern design; high-impact polypropiyene case; simplified mounting end ell-channel range (thru CH 83 on UHF). A compact indoor power supply is included with each model.

FEATURES

- Lowest UHF noise figure on any preamp evailable plus lower VHF noise figure (4.5 dB).
- Three way split-band amplifier sections (VHF 2-6, 7-13 and UHF) to eliminete low band signal interference with high band and to optimize dynamic range.
- Each Galaxy is protected from lightning and power line surges.
- Gain: VHF 15 dB, UHF 20 dB.

UHF/VHF DISTRIBUTION AMPLIFIER

MODEL MUVB-15 OUR PRICE $64.50
• Output Capability (dBmV): VHF=50; UHF=47.
• Gain: VHF=15 dB; UHF=18 dB.

An inexpensive Masterline® UHF/VHF amplifier. Excellent for small home all-channel distribution systems. Full CH 2-83 operation including CATV midband for premium channels. Adjustable built-in FM trap to attenuate strong local Fm stations. A low-cost professional solution to residental TV systems for technically discriminating home owners.

VHF DISTRIBUTION AMPLIFIER

MODEL MVB-15 OUR PRICE $49.50
• Output Capability (dBmV): VHF=50.
• Gein: VHF=15 dB.

An inexpensive Masterline® VHF-only amplifier. Ideal for small home TV distribution systems or for that little bit of extra power to solve end-of-the-line MATV situations. Full CH 2-13 operation including CATV midband for premium channels. Adjustable built-in FM trap to attenuate strong local FM station and minimize TV interference. A low-cost professional solution to residential TV systems for technically discriminating home owners.

VHF DISTRIBUTION AMPLIFIER MODEL MVB-25 OUR PRICE $64.95

• Output Capability (dBmV): VHF=50. • Gain: VHF=27.

Professionel quality amplifier for large homes and small commercial MATV systems. Provides a larger end-of-the-line kick than the MVB-15. Excellent for TV showrooms in VHF-only ereas. Provides low-cost CATV midband emplification for premium channel distribution. Switchable FM band stop filter eliminates TV interfernce from strong local FM stations.

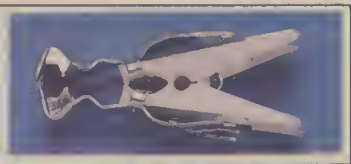
Top Row (Left to Right): DA-475, MVB-15, MVB-25

Bottom Row (Left to Right) MUVB-15 MUVB-25 5120/5123

DISTRIBUTION AMPLIFIERS/ANTENNA ACCESSORIES

BP ANTENNA CLOTHES PIN

MODEL CP-1
OUR PRICE 20 FOR $5.00
100 FOR $20.00

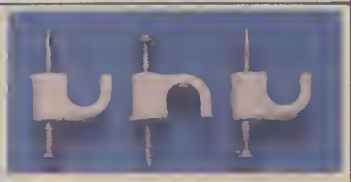


BP CABLE CLAMPS

For 75 Ohm coax cable

MODEL V-425 OUR PRICE $1.50 per pkg.

For securing cable to wood, cement, plaster, brick, almost any surface. Tough, non-corrosive plastic. Complete with corrosion resistant hardened steel nails. Pkg. of 25.



BP TWIN LEAD CONNECTORS

MODEL V-265
OUR PRICE 2 FOR $1.00

Bulk packaged. Clear polystyrene twin lead connectors make joining 300Ω twin lead a snap.

BP SUPER COLOR TV BOOSTER

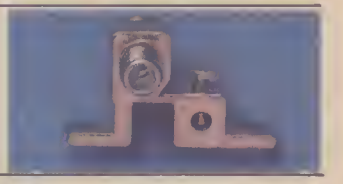
MODEL V-7300
OUR PRICE $29.95

- High Gain. ▪ Low Noise.
- Full lighting protectin.
- ▪ High Power. ▪ Easy to mount.
- ▪ Environment stability.

SPECIFICATIONS´
Bandwidth: 40-860MHz. **Gain:** V:26dB, U: 22dB. **Max. Output Level:** 105 dBuV. **Input Impedance:** 75/300Ω. **Output Impedance:** 75/300Ω. **Noise Figure:** 4dB/below AT500MHz. **Applicable Temp.:** -20°C — +50°C. **Size:** 143 x 82 x 68mm. 330 g.

BP GROUNDING BLOCK

MODEL GB-1
OUR PRICE 69¢ each 10 FOR $4.90



BP ELECTRONICS, INC. CABLE SWITCHING KIT

MODEL V-488 OUR PRICE $9.95

Easy to install - Economical way to record any pay channel - while viewing any standard channel. Consist of: (3) F-3F and (1) F-6 F cables, (1) A/B Switch, (1) CA-2111.

DISTRIBUTION AMPLIFIER VHF/UHF/FM With FM Trap UHF SIGNAL BOOSTER

MODEL DA-425 OUR PRICE $29.95 each 4 FOR $100.00

- Designed for TV/VCR multiple-set installations. • Provides high gain to improve TV reception on VHF/UHF channels 2-83. • Integrated circuit. • Low noise. • High overload capacity
- Heavy gauge metal housing. • Extra lightning protection et RF input. • On/off indicator light. • Switcheble FM trap. • 54-900 mHz. • 24 dB VHF—22dB UHF. • 75Ω input and output. • **Display Package.**

SPECIFICATIONS: **Bandwidth:** VHF 54-900 MHz, UHF 470-890MHz. **Gain:** VHF 24dB, UHF 22dB. **Modulation:** -46dB: VHF 40dBmV per channel, UHF 40 dBmV per chan. **Noise Figure:** VHF Low 5.4dB, High 6.2dB, UHF 14dB. **FM Trap: Attenuation Rejection Band:** -20dB (switchable) 95-105 MHz. **Input:** 75Ω - 'F' type coaxial cable. **Output:** 75Ω - 'F' type coaxial cable. **Power Requirements:** AC 117V. 60Hz. **Size:** 3-3/32" x 5-5/8" x 1-7/16". Cord length: 6 ft.

VHF/FM AMPLIFIERS

MODEL 7002
OUR PRICE $10.95 each 2 FOR $20.00

- All solid stete signal emplifier boosts weak signals. • Signal gain: 10 dB.
- Bandwidth: 50-300 mHz. • Volts: 110-120V AC. • Impedance: 75Ω.
- Outputs: One. • **Display package.**

MODEL 7003
OUR PRICE $12.95

- All solid state signel amplifier boosts signals. • Signal Gain: 8 dB.
- Bandwidth: 50-400 MHz. • Volts: 110-120 VAC. • Impedance: 75Ω.
- Outputs: Two. • **Display Pkg.**

MODEL 7004
OUR PRICE $14.95 each 2 FOR $28.00

- All solid state signal amplifier for up to 4 sets.
- Signal gein: 3 dB 50-300 mHz. • Impedance: 75Ω.
- Outputs: Four. • **Display package.**

GHOST ELIMIATOR 75Ω VARIABLE ATTENUATOR

MODEL V-460 OUR PRICE $7.95

- Illiminates Ghosts in TV reception. • Reduce interference in TV reception from e multipath interference from a single station. • The ettenuator allows you to fine-tune each station for the best signal strength.
- Install this model et the 75Ω terminal on back of TV, using a coaxial ceble with "F" connectors (not included). If your TV has only a 300Ω screw terminal, use a 300 to 75Ω transformer. (not included).

UHF/VHF/FM RF ATTENUATORS

MODEL 7270 OUR PRICE $7.95

This highly stable, in-line, fixed and variable attenuator can be used anywhere needed, for adjusting or equalizing signal levels. It is a varieble unit providing 0-21dB attenuation in 3dB steps.

BLONDER-TONGUE CATV INDOOR DISTRIBUTION AMPLIFIERS

MODEL DA-21S OUR PRICE $82.50

- Ideal CATV distribution amplifier in small apartment buildings.

Band Pass (MHz): 50-300. **Band Pass Flatness:** ± 0.5 dB. **Gain (Typical) Adjustable From:** 23 dB fixed.

WIDEBAND AMPLIFIER

MODEL DA-33 OUR PRICE $449.95

- Ultra-wide bandwidth 0.5 mHz-300 mHz. • Push-pull hybrid IC amplifier. • Exceptionelly high output.

Band Pass (MHz): 0.5-300. **Band Pass Fletness:** ± 1.0dB. **Gain (Typ.) Adjust. From:** 18dB to 36dB.

- Ideal for increasing the output level of sweep generator or signal generator. Also used as a preamplifier for CATV signal level meter (SLM) used to make FCC required signal leekage measurements. It may also be employed as a sub-channel return emplifier. The DA-33 is also used aboard ship where its coverage of the short wave and communications bands is desired

WIDEBAND DISTRIBUTION AMPLIFIER

MODEL ACA-30/300 OUR PRICE $185.00

- Flat response: 50-300 mHz. • 40 dBmV output per channel for 21 channels
- Slim line design - easy to install. • Front panel gain and slope controls
- Designed specifically for apartment building and other multiset installations served by CATV. **Band Pass (MHz):** 50-300. **Band Pass Flatness:** ± 0.75 dB. **Gain (Typ.) Adjust.** From: 17dB to 32dB.

BIDA BROADBAND INDOOR DISTRIBUTION AMPLIFIERS

MODEL 300-50 300 MHz OUR PRICE $449.95 MODEL 450-40 450 MHz OUR PRICE $479.95

- Hybrid IC circuitry for high output with low distortion. • Field installable options for 2 way compatability (Passive or Active).
- Designed for CATV and SMAT systems using a cable drop as e signal source.

Forward Gain (1 way): +51 dB. **Flatness (1 way):** ±0.5 dB. **Gain Control Range (1 way):** 10 dB. **Noise Figure (1 way):** 6.0 dB.

ANTENNAS and ACCESSORIES

TDP MINI-STATE ANTENNAS UHF & VHF 35 mile range antenna

MODEL 5MS-740

OUR PRICE $99.95

TV Antenna System For Home or Apartment.

AC / DC MINI-STATE ANTENNA UHF & VHF

MODEL 5MS-750

OUR PRICE $119.95

Recreational Antenna System For Boat or Camper.

DESCRIPTION

The TDP Mini-State Antenna Systems are improved versions of the 5MS-740 end 5MS-750 Mini-State antennas. They have been engineered to bring in sharp, clear TV reception with e new VHF/UHF broadband amplifier. The new amplifier now amplifies the UHF band end has higher geln on VHF. These improvements have elso greatly improved the signal to noise ratio of the entenna. The power supply for the new systems has been redesigned to ellow easy hook up of additional outlets.

FEATURES for 5MS-740

- Ideal for home or apertment. • Compact (21" diameter end 7" high) end light (6 lbs.).
- Attaches to roof, chimney, window or balcony. • Full circle rotation for trouble-free operetion.
- Can be used indoors in ettic or on closet shelf. • Solid state circuitry.
- Everything weather protected in e rugged plastic radome. • Hand held remote control.
- Includes built-in rotating entenna, emplifier, power supply, remote control unit end hardware. Plus 60 feet leed in cable, housing, co-axial cable and rotator wire.

FEATURES for 5MS-750

- Recreationel entenne that can be used for boat or camper. • Designed for outdoor use.
- Power: 120VAC, 12DC. • Enables you to operate from dockside, campsite or home.
- 30 Ft. cable. • All other features are the same as Model 5MS-740.

BP AUTOMATIC ANTENNA ROTOR

MODEL AR-200XL

OUR PRICE $49.95

Improve your TV and redio reception by rotating your entenne to the perfect spot. Just turn the diel and your antenna will automatically rotate until you decide on its best position for your channel reception. This economical system ellows you to utilize your antenna to it full potential by posltioning it each time to pick up your maxium signal strength.

This system consists of two major components, the control box end the rotator. The full mount rotator accommodates flat end wedge-type TV/FM antenna, with 192 lbs./in motor torque.

SPECIFICATIONS

Input Voltage: 117VAC, 60Hz. 68W. **Output:** 18VAC ±5%. **Rotation:** 360° +5%-0°with mechenicel stop. **Rotation Time:** 70 seconds 50Hz, 65 seconds 60Hz. **Rotation Torque: 220kg-cm (192 lb. in) minimums. Mast Size:** 28-44mm (1-1/8" —1-3/4") dia. **Verticsl Load:** 45kg (99 lbs.) max imum. **Cable:** 3 core. **Weight:** 4kg. (8.8 lbs.)

BP UHF/VHF/FM INDOOR ANTENNA

Super Performance
High Sensitivity
On All Bands

MODEL AN-5310

OUR PRICE $19.95 *SPECIAL!*

FEATURES

- 12 position fine tuning rotary control for maximum VHF/FM reception.
- Adjustable UHF element for best UHF reception.
- Wall Mountable: Size (Hanging): 1-7/8"D x 8"W x 13-7/8"H (entenna not extended).
- Size: (Sitting) 10-1/2"H (antenna not extended) x 5-5/8"D x 8"W. Antenna extends 39-1/2" approx.

BP TV TO STEREO AUDIO ADAPTOR/ENHANCER

PERFECT FOR MTV

MODEL V-2250 OUR PRICE $16.95

The V-2250 easily connects to any TV end Stereo Amplifier — letting you enjoy simulated stereo sound from all your favorite TV shows. Makes taping TV Audio simple — TV can be located any distance from stereo. Delivers two channels of simuleted stereo.

FEATURES

- The V-2250 gives you simulated stereo from all your favorite TV shows.
- With noise eliminator & special output level controls. • Frequency response: 50Hz -15,00KHz.

SPECIFICATIONS

- Insertion Loss —3dB max. • Volume Effect —40dB min.
- Noise Elimination: 6dB min. • Dimensions: W 5-1/8" x H 2-1/2" x D 3-1/4".
- Use to Record from Mono VCR to Stereo VCR.

TDP PERMACOLOR™ PREMIERE

UHF/VHF/FM
STEREO APPROVED
ALL-CHANNEL ANTENNA

MODEL 4BG18

OUR PRICE $24.95

- No Assembley Required: Just snap out the elements and bolt it to your mast!
- 60° "Swept Element" Design: For ultimate reception and superior perfor mance with less picture ghosting.
- Blue and Gold Polyester Finish: Resists corrosion and weathering to add years to the life of your antenna.
- Heavy Duty Steel Mast Clamp and Hardware: Zinc plated for durability and strong enough to withstand high winds and heavy ice loads.
- Range: 70 miles (dependent on terrain).
- UHF YAGI and Corner Reflector: Sherp-shooting UHF/VHF/FM combination delivers long-range reception on all channels with the picture quality today's TV demand.
- Snap-Out Elements: with matching high-impact insulators for easy assembly end long antenna life. Square boom for extra strength.

BP VIDEO SWITCHER

MODEL V-4801

OUR PRICE $19.95

Now all you do is flip a switch to watch e program on any channel, while simultaneously recording a progrem on any cable or pay TV channel—or vice versa. Plus, you can use your recorder's programming feature to record cable or pay TV programs while you're eway.

The Switcher also allows you to use your remote control device while recording. That's something you can't do on many video systems.

The Switcher is a completely pre-assembled unit that you simply 'plug into' your system using special cables (not included). Anyone can do the job in less than 5 minutes—with no need for special tools or technical know-how. Best of all, the Switcher is small enough (5 x 7 x 1") end good looking enough to fit in beautifully with your video components.

With the sizable investment you have in your TV, VCR and Cable/Pay TV systems, the Switcher gives you an easy, inexpensive way to greetly increase the value and enjoyment of that investment. • Cables Not Supplied Optional Cable Kit...$3.75: includes 3 F-3F cables at $1.25 each

BP VIDEO CONTROL CENTER

MODEL V-4802

OUR PRICE $19.95

EXTRA SPECIAL!

The Video Control Center Model V-4802 provides remote control access of all your Video, TV or Cable inputs to your TV set or Big Screen TV from one convenient location by merely flipping e switch.

FEATURES

- One output, your TV set or Big Screen TV.
- No need to change cebles to access your desired Video or TV input to your TV set.
- Four inputs can handle whatever you desire to send to your TV set.
- Completely passive, i.e. no AC power required to operate.
- Auxiliary input and output provides added flexibility to complete your control center.
- Small, compact Lightweight. • **Cables Not Supplied**

Optional Cable Kit...$3.75: includes 3 F-3F cables at $1.25 each.

BP UHF/VHF/FM INDOOR ANTENNA AMPLIFIER

Improve Your TV and FM
Stereo Performance

MODEL V-300

OUR PRICE $14.90

DESCRIPTION

This indoor antenna emplifier was designed to solve indoor reception problems. Its high gain UHF/VHF/FM emplifier boosts the performance of "rabbit ears" or UHF loop entennas. It greatly improves reception of indoor FM antennas.

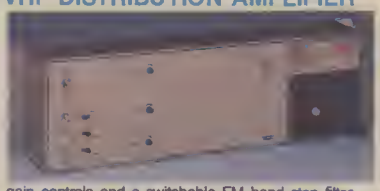
This unit can be mounted directly to the back of the television by using the attached selfadhesive surfece. A 4-1/2" section of twinlead with spade lugs is provided as a jumper between amplifier and TV terminals.

- 300Ω input and output. • Gain: 5 dB.

CALL US MONDAY THRU FRIDAY 8:00 AM to 6:30 PM • SATURDAY 9:00 AM to 3:00 PM E.S.T.

BLONDER-TONGUE UHF/VHF DISTRIBUTION AMPLIFIER

MODEL MUVB-45 OUR PRICE $449.95



A channel expander amplifier, engineered for adding local origination UHF channels to buildings fed with e CATV drop. Switchable antenna inputs permit selection of: 1) A combined UHF/VHF input. 2) Individual UHF and VHF inputs, or 3) Individual UHF, low band VHF, and high band VHF inputs. Has individual high band VHF, low band VHF, and UHF gain controls and a switchable FM band stop filter. Has full UHF range to 890 mHz and fits standard 19-inch rack.

SPECIFICATIONS: Output Capability (dBmV): VHF and flat=53.8; 6 dB block tilt=56; UHF=51.5. **Gain (typ.) Adjust. from (dB):** LB/FM=28-46; HB=27-45; UHF=27-45.

VHF DISTRIBUTION AMPLIFIER

MODEL MVB-45 OUR PRICE $269.95

"The Workhorse" for medium to large size MATV systems. The successor to the CVB-45A, the all-time broadband MATV industry wide best seller. Features switchable, combined or split inputs for use with either e single antenna (low band, FM, high band) or for separate low and high band antennas. Has individual high and low band gain controls and e switchable FM band stop filter. Fits standard 19-inch rack.

SPECIFICATIONS: Output Capability (dBmV): VHF and flat =54; 6 dB block tilt =56. **Gain (typ.) Adjust. from (dB):** LB/FM =28-46, HB =18-46.

UHF/VHF DISTRIBUTION AMPLIFIER

MODEL MUVB-35

OUR PRICE $219.00

For apartment buildings, condominiums, cluster housing or other medium size MATV installations that are specified for UHF on-channel distribution in addition to regular VHF. Split band construction with individual high band VHF, low band VHF and UHF gain controls permit band balancing on longer cable runs. Switchable FM band stop filter to eliminate strong local FM interference. Full UHF range to 890 mHz—ideal translator reception.

SPECIFICATIONS: Output Capability (dBmV): LB&HB=49; UHF=49. **Gain (typ.) Adjust. from (dB):** LB/FM=23-35; HB=22-34; UHF=18.

VHF DISTRIBUTION AMPLIFIER

MODEL MVB-35 OUR PRICE $139.95

For apartment buildings, condominiums, cluster housing or other medium size MATV installations. Split band construction with separate high and low band gain controls permits band balancing on longer cable runs. Switchable FM band stop filter to eliminate strong local FM interference.

SPECIFICATIONS: Output Capability (dBmV): VHF and flat=49; 6 dB block tilt=51.5. **Gain (typ.) Adjust. from (dB):** VHF=23-35.

BP VHF/UHF MATCHING TRANSFORMER

MODEL MT-1

OUR PRICE 75¢ each

10 FOR $6.00 100 FOR $50.00

• Frequency Range: 5-900 mHz.
• Circuit: 3 capacitors on PC board.

VHF/UHF 75-300Ω matching unit. Miniature size completely shielded end balanced for reduction of direct pick-up. AC/DC blocking.

BP VHF/UHF/FM SEPARATOR

MODEL SP-703BL

OUR PRICE $1.95 each

10 FOR $18.00

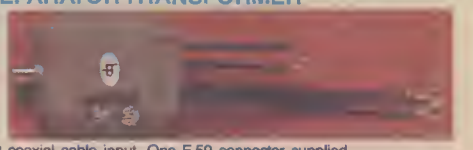
Use behind TV set to split the VHF/UHF/FM signals to the TV set or FM receiver from e single 300Ω down lead. Piercing washer terminals eliminate the need to strip wire ends.

BP VHF/UHF/FM SEPARATOR-TRANSFORMER

MODEL SP-803BL

OUR PRICE $2.50 each

10 FOR $20.00



Used behind TV set to split the VHF/UHF/FM signals to the set or FM receiver from a single 75Ω coaxial cable input. One F-59 connector supplied.

VCR/TV SEPARATOR VHF/UHF/FM SPLITTER BALUN

MODEL SP-903 OUR PRICE $3.00 each 10 FOR $25.00

• 75Ω input with F connector. • 75Ω and 300Ω output. • **Blister package.**

COAXIAL CABLE OUTLET

MODEL MA-1010 OUR PRICE 99¢ each 10 FOR $9.00

Flush-mounted feed through, 75 Ω cable output, 75 Ω input receptacle. Constant impedance. Incorporates crimp-on ferrule connection for lead-in. F59A female connection both ends. **Display package.**

MODEL MA-1080 OUR PRICE 49¢ each 10 FOR $3.90

Flush-mounted feed-thru wall plate. Ivory color. **Display package.**

BP ELECTRONICS, INC.® CATV SPLITTERS

MODEL CA-2111 OUR PRICE $1.50 each 10 FOR $10.00
• Bandwidth: 5-400 mHz. • Splitter Loss (max.): 3.5 dB. • Isolation Port to Port (min.): 30 dB. • Number of Ouputs: 2. • Return Loss (match): 20 dB. • Impedance: 75Ω. • Power Pass: No.

MODEL CA-2122 OUR PRICE $1.95 each 10 FOR $15.00
• Bandwidth: 5-400 mHz. • Splitter Loss (max.): 3.5 dB. • Isolation Port to Port (min.): 30 dB. • Return Loss (match): 20 dB. • Impedance: 75Ω. • Number of Outputs: 2. • Power Pass: No.

MODEL CA-2133 OUR PRICE $2.25 each 10 FOR $18.00
• Bandwidth: 5-400 mHz. • Splitter Loss (max.): 1 Port 3.5 dB; 2 Port 7.0 dB. • Impedence: 75Ω. • Isolation Port to Port (min.): 25 dB. • Return Loss (match): 20 dB. • Number of Outputs: 3. • Power Pass: No.

MODEL CA-2144 OUR PRICE $2.95 each 10 FOR $25.00
• Bandwidth: 5-400 mHz. • Splitter Loss (max.): 7.0 dB. • Isolation Port to Port (min.): 25 dB. • Return Loss (match): 20 dB. • Impedance: 75Ω. • Number of Outputs: 4. • Power Pass: No.

MODEL CA-2188 OUR PRICE $4.95 each 5 FOR $20.00
• Bandwidth: 5-400 mHz. • Splitter Loss (max.): 10.5 dB. • Isolation Port to Port (min.): 25 dB. • Return Loss (match): 20 dB. • Impedance: 75Ω. • Number of Outputs: 8. • Power Pass: No.

MATV HYBRID SPLITTERS

MODEL CA-2411 OUR PRICE $1.50 each 10 FOR $10.00
• Bandwidth: 5-900 mHz. • Power Pass: Yes. • Splitter Loss (max.): VHF—3.5 dB; UHF—4.0 dB. • Isolation Port to Port (min.): VHF—25 dB; UHF—20 dB. • Impedance: 75Ω. • Return Loss (match): VHF—20 dB; UHF—16 dB. • Number of Outputs: 2.

MODEL CA-2422 OUR PRICE $1.95 each 10 FOR $15.00
• Bandwidth: 5-900 mHz. • Power Pass: Yes. • Splitter Loss (max.): VHF—3.5 dB; UHF—4.0 dB. • Impedance: 75Ω. • Isolation Port to Port (min.): VHF-25dB; UHF-20dB. • Return Loss (match): VHF-20 dB; UHF-16 dB. • 2 Outputs.

MODEL CA-2433 OUR PRICE $2.25 each 10 FOR $18.00
• Bandwidth: 5-900 mHz. • Power Pass: Yes. • Splitter Loss (max.): VHF—3.5 dB; UHF—4.0 dB. • Impedance: 75Ω. • Isolation Port to Port (min.): VHF-25dB; UHF-20dB. • Return Loss (match): VHF-20dB; UHF-16dB. • 3 Outputs.

MODEL CA-2444 OUR PRICE $2.95 each 10 FOR $25.00
• Bandwidth: 5-900 mHz. • Power Pass: Yes. • Impedance: 75Ω. • Splitter Loss (max.): VHF-7.0 dB; UHF-8.0 dB. • 4 Outputs. • Isolation Port to Port (min.): VHF-25 dB; UHF-20 dB. • Return Loss (match): VHF-20dB; UHF-16dB.

BP 100 WATT 3-WAY COMPACT SPEAKERS

BIG SOUND PRODUCERS

MODEL HF-16 REG. $149.95 OUR PRICE $69.95 per pair *SPECIAL!*

FEATURES

- High performance compact speakers.
- CD Compatible.
- Distinctive sound quality.
- Wooden cabinet.
- Impedance: 4-8 ohms.
- Each speaker has: 1-High performance 2-3/4" tweeter, 1-High efficient 3-1/2" midrange, and 1-full base 5" woofer.
- Power: 2x 100 watts.
- Frequency response: 80-20,000 Hz.
- Size (each): 14"H x 6-3/4"D x 8-5/8"W.

BP FM/STEREO ANTENNA AMPLIFIER

MODEL FM-9700 OUR PRICE $24.95 *EXTRA SPECIAL!*

DESCRIPTION

Help your FM receiver deliver crisp, clean, undistorted sound, by using, the FM-9700. This high quality FM antenna will enhance your listening pleasure without having to purchase large unsitely outdoor antennas.

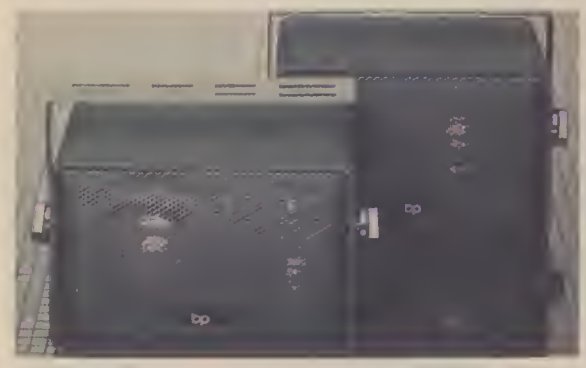
SPECIFICATIONS

FM/Stereo Signal: 88-108 mHz. **Gain:** 15dB. **Output:** 75 Ω or 300 Ω. **Size:** 6"W x 4¼"D x 4¼"H, antenne bar 23½"L. Comes with 6 ft. coaxial cable end matching transformer. Operates on 110-117 VAC.

BP 3-WAY MINI SPEAKERS with BRACKETS

THE MINI SPEAKER with MAXI SOUND

MODEL HF-9 OUR PRICE $39.00 per pair



SPECIFICATION

- Die cast aluminum. • 1" Soft dome tweeter. • 3" Long throw woofer.
- 2" Extended midrange speaker. • Frequency response 80-20,000 Hz.
- Impedence: 8 ohms. • Max. power: 50 watts. • Size: 7-1/4"W x 4-1/2"H x 4-3/8"D

RECOTON WIRELESS AC POWERED SPEAKER SYSTEM

MODEL W-100R OUR PRICE $199.95 per pair *SPECIAL!*

DESCRIPTION

The Wireless 100 provides outstanding stereo quality, and total mobility throughout the home without running wire. The speakers receive the stereo signal from e single transmitter that plugs into the heedphone, tape or line out jacks on your existing stereo system or component; transmitter plugs into the nearest AC outlet. The speakers feeture e high impect, water resistant enclosure with full range high performance bass reflex speakers with: wireless 12 W RMS per channel amplified loudspeaker system, 4-1/2" full renge driver, signal to noise ratio 80dB, stereo separation 90dB, 60-15000Hz frequency response, on/off power switch and volume control. Size: Speakers (eech): 6"W x 6"D x 8-1/4"H.

RECOTON F.R.E.D. SP-II SELF-POWERED SPEAKERS

MODEL V-633

OUR PRICE $149.95 per pair

SPECIAL!

DESCRIPTION

The F.R.E.D. SP-II ere emplified speakers which features computer designed crossover networks to provide concert-like stereo separation. The speaker's stand-up enclosure is fully shielded so that it can be placed near eny TV monitor without interfering with picture quality. It has front panel controls for easy eccess. Power: 12 W RMS. Frequency Response: 50-20kHz. Impedance: 4Ω. 5¼" woofer. 2¼" tweeter. Includes separate AUX input for a VCR, Compact Disc or other eudio-video components. AC powered and UL listed.

Size (ea.): 17¾"H x 6½"W x 7⅛"D.

MINI JUKEBOX

MODEL JB-1

OUR PRICE $49.95

EXTRA SPECIAL!

DESCRIPTION

Here's a unique opportunity to ecquire a jukebox that's fun for the whole family. It's an attractive AM/FM radio and cassette player that can be coin operated (accepts and stores quarters) or manually switched on. It features colored blinking lights end a built-in 3" speaker. A special cassette tape is included featuring eight top ten hits, five were number one.

Titles Include: Chantilly Lace, Big Bopper; I'm e Believer, The Monkees; Blueberry Hill, Fats Domino; Come Go With Me, Dell Vickings; Stop! In the Name of Love, The Supremes; Rock Around the Clock, Bill Haley & the Comets; He's So Fine, Chiffons; I Can't Help Myself, Four Tops.

Power Source: AC adaptor (not included) or 4 "D" batteries (not included)

Size: 6⅞"W x 12⅜"H x 5½"D.

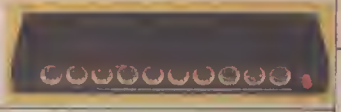
NADY INFRARED STEREO CORDLESS HEADPHONE SYSTEM

MODEL IR-SYSTEM ***EXTRA***
OUR PRICE $49.95 ***SPECIAL!***

Enjoy the freedom of cordless hi- fidelity stereo from any audio source—record player, tape, radio or TV with the new Nady IR Cordless Headphone System.

Additional applications for this versatile system include hard-of- hearing uses such as TV viewing, church services, etc. This system cen also be used to provide interpretations at multi-lingual meetings, language labs, etc.

Since the Nady IR Headphone System uses transmission with invisible infrared light dwaves, and not radio waves with penetrate walls, privacy is assured In any use as propagation is limited to the room in which is being used.
The new Nedy Infrared Headphone System offers performence previously only available In systems costing many times as much. Nady has made the many advantages of advanced infrared technology truly affordable.



BP® STEREO GRAPHIC EQUALIZER

MODEL GE-333
OUR PRICE $79.95
SPECIAL!

Ten band stereo Graphic Equalizer is ideal for home stereo use and a necessity for home recording and listening to music.

• 10 band stereo equalizer. • Attenuator control. • Equalizer On/Recording switch. • Power switch • Equalizer off switch. • Tape monitor indicator. • Tape monitor switch. • Octave controls.

SPECIFICATIONS

Semiconductors: ICs: 12. **Transistors:** 2. **Diodes:** 6. **Equalizer Section: Equalizer Range (individual channel adjust):** ±12dB, 32Hz, 64Hz, 125Hz, 250Hz, 500Hz, 1kHz, 2kHz, 4kHz, 8kHz, 16kHz. **Total Harmonic Distortion:** 20Hz — 20kHz, All Control; Flat, Output: 1V 0.01%. 1kHz, All Control; Max., Output: 3V 0.01%. 1kHz, All Control; Flat, Output: 2V 0.01%. 1kHz, All Control; Min., Output: 1V 0.03%. **Insertion Loss:** 0dB (Control; Flat). **Max. Output Voltage:** (1kHz, THD.: 0.02%, RL 47k ohm) 5.5V. **Frequency Response:** 5Hz — 100kHz +0 −3 dB. **Signal to Noise Ratio:**(IHF, A Net work, short circuited, 1V Output) 85dB. **Input Impedance:** 50k ohm. **Output Impedance:** 600 ohm. **Miscellaneous: Power Requirement:** LE model; AC220-240V, 50/60 Hz LU model; AC 110V-120V, 50/60 Hz. **Power Consumption:** 15W. **Dimensions (WHD):** 450 x 80 x 240 mm, 17-5/8 x 3-1/8 x 9-4/8 in. **Weight:** 3.5 kg., 7 lb. **Operating Instructions.**

BP® STEREO PRE-AMP

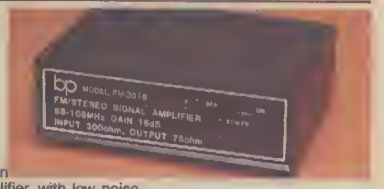
MODEL PA-420
OUR PRICE $7.95 **10 FOR $69.00**

Solid state pre-amp allows use of stereo magnetic cartridge on any console or portable record player. RIAA equalization. Standard phono inputs and outputs. Blister package.

FORDHAM FM INDOOR SIGNAL AMPLIFIER

BOOSTS FM SIGNAL FOR BETTER STEREO SOUND

MODEL FM-3018
OUR PRICE $19.95



This amplifier increases FM signal reception in "fringe" areas. It is a high gain RF amplifier, with low noise figure, which can result in good FM stereo sound. A strong local FM station mey produce interference in the FM receiver. The amplifier provides 18 dB of gein and uses less than 5 watts of power. For 75 or 300 ohm receiver inputs. AC operation.

BP® AUDIO CABLE

MODEL HP-15
OUR PRICE $4.99

- For two heedphones.
- 15 ft. coiled cord. • Poly with header.
- 1/4" stereo phone plug to two 1/4" stereo phone jacks.

MODEL HP-25
OUR PRICE $2.99 each 10 FOR $27.50

- 25 ft. coiled type sterep heaphone extension. • 3 circuit stereo.
- 1/4" phone plug to 3 circuit stereo 1/4" jack. • Poly with header.

SANYO BATTERY CHARGER

For 'AA'-C-D & 9V Rechargeable Batteries

MODEL NC-1239 **OUR PRICE $17.95**

Make the economy switch to rechargeable batteries. This charger brings batteries beck to full strength up to 1000 times (depending on use). It accommodetes all standerd sizes and recharges two to four batteries simultaneously and has a rapid charge time of 8-10 hours. A fail-safe LED indicator is Included plus it plugs Into any ordinary AC outlet.

Optional Long-lasting Sanyo CADNICA batteries:
N-1U D size. . .$3.95. **N-2U** C size. . .$3.75. **N-3U** AA size. . .$3.25. **N-6PT** 9 volt. . .$8.95.

BP® electronics, inc. STEREO HEADPHONES

MODEL SH-87A **REG. $19.95** **OUR PRICE $6.95** An ultra lightweight headphone ideal for portable cassette players and radios. • Impedance: 4-32Ω. • Cord length: 6.6'. • Frequency: 20-18,000 Hz. • Stereo plug: 3.5mm.

MODEL SH-89A **REG. $29.95** **OUR PRICE $9.95** An ultra lightweight headphone featuring swivel type speakers are adjustable within 90° arc for maximum comfort. Ideal for portable cassettes and radios. Cable end has 3.5mm mini plug. Furnished with standard 1/4" plug adaptor for home stereo equipment. • Impedance: 4-32Ω. • Cord length: 6.6'. • Frequency: 20-18,000 Hz. • Stereo plug: 3.5mm.

MODEL SH-92A ***Dynamic High Fidelity Mylar Type*** **OUR PRICE $12.95** • Frequency Response: 20-25,000 Hz. • With samarium cobalt magnet. • Sensitivity: 98 dB/mW. • Impedance: 25Ω. • Cord length: 7 ft.

MODEL HP-40 ***Has Volume Tone Control*** **OUR PRICE $14.95** • Speaker: 3" dynamic. • Frequency Response: 30-18,000Hz. • Input Impedance: 8Ω. • Input Max.: 500mW. • Ear Cup: closed air type. • Cord Length: 3m spiral. • Volume/tone control.

MODEL SH-96A ***Has Volume Control*** **REG. $69.95** **OUR PRICE $32.95** Performance rated, high quality headset. Dual headband. Individual slide volume control and 360° swivel-type leathery comfort speakers. • Frequency response: 18-25,000 Hz. • High sensitivity — can be driven to full volume with very little input. • Connecting cord: 10 ft. with standard phone 1/4" stereo plug.

MODEL SH-60A ***Deluxe Headphone with Volume Control*** **OUR PRICE $9.95**
• Sensitivity: 110dB @ 1000Hz with 1mW. • Frequency response: 20-18,000Hz. • Unit Impedance: 8Ω. • Matching impedance: 8Ω - 16Ω. • Max. input: 0.5 watts. • 10 Ft. cord with 3-circuit phone plug

AUTO/AUDIO ACCESSORIES

AUDIOVOX 2-WAY 6" x 9" SPEAKERS

MODEL CX-150

OUR PRICE $39.95 per pair

- Deluxe coaxial 6" x 9" polypropylene cone system.
- Standard 6" x 9" size fits factory opening in meny rear decks.
- Vacuum-formed polypropylene woofer cone is resistent to environmental hazards and reproduces sound with accuracy.
- Powerful 20 oz. ceramic magnets.
- Foam-roll air-suspension edge.
- Post-mounted 3" wide-dispersion tweeter. • Deluxe metal-mesh grilles.
- 100 W max. power capacity per speaker. • 70-18,000 Hz response. • 4-8 Ω.

DELUXE COAXIAL 6" POLYPROPLYENE CONE SYSTEM

MODEL CX-50

OUR PRICE $39.00 per pair

- Popular 6" size for in-door or in-deck mounting.
- 5¼" polypropylene woofer cone for highest sound quality and resistance to environmental effects.
- 20 oz. ceramic magnets.
- 2" cone tweeter.
- Foam-roll air-suspension edge. • 4-8Ω compatible. • Deluxe molded grilles.
- 90-18,000Hz response. • 100 W max. power capacity per speaker.

3-WAY SPEAKERS 100 WATT HI-PERFORMANCE

MODEL TRY-150 6" x 9"

OUR PRICE $69.00 per pair

- Powerful 27 cz. barium-ferrite megnets.
- Foam-roll woofer suspension.
- High temp. 1½" aluminum voice coil.
- 2½" cone mid-range and 2" solid-state Piezo tweeter on bridgeless design support.
- For in-deck use in factory 6" x 9" opening.
- Self-studded metal-mesh grilles. • 40-20,000 Hz response. • 4-8Ω compatible.

DELUXE 3-WAY 6" ROUND SPEAKER SYSTEM

MODEL TRY-45

OUR PRICE $39.00 per pair

- Bridgeless post-mount construction.
- 6" size for in-door or in-deck use.
- 5¼" woofer cone with foam-roll suspension and 20 oz. magnet.
- 1½" mid-range driver with cross-over.
- ⅜" mylar dome tweeter in 1" horn.
- Snap-on grilles. • 40 watts max. power cap. • 70-18,000 Hz response. • 4-8Ω compatible.

DELUXE 3-WAY 6" x 9" SPEAKER SYSTEM

MODEL TRY-50

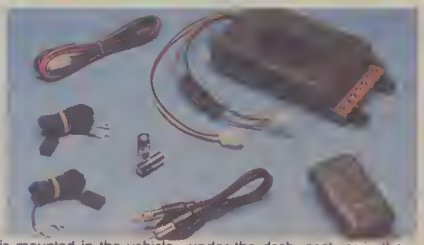
OUR PRICE $39.00 per pair

- Bridgeless post-mount construction.
- 6"x9" fits factory opening in reer deck.
- Foam-roll air-suspension woofer with powerful 20 oz. magnet.
- 3" mid-range driver with cross-over.
- Self studded metal-mesh grilles.
- 40 W max. power capecity.
- 2" cone tweeter. • 4-8Ω compatible. • 60-18,000 Hz response.

AUTOPAGE VEHICLE SECURITY ALARM SYSTEM

MODEL AP-4000

OUR PRICE $99.00



AUTOPAGE 4000 gives you 24 hour surveillance of your vehicle and valuables. The coded radio signal alerts only you. The AP-4000 arms itself automatically whenever the vehicle's engine has been turned off. A pocket sized pager (receiver) emits a clear beeping tone in conjunction with a flashing warning light when the system is triggered. 1,000 individually tone-coded combinations virtually eliminate false alarms. The transmitter is mounted in the vehicle—under the dash, seat, or in the glove compartment: Its signal is triggered when the resonace sensors detect tampering. Come with two sensors to detect high frequency metallic sounds made by a 'slim jim' or pry bar. They in turn trigger the system.

AUDIOVOX REMOTE CONTROL SECURITY SYSTEM

MODEL AA-9141

OUR PRICE $69.95

- Voltage Sensor. •Keyring Transmitter.
- 2-RF Transmitters. • Instant Circuit.
- Built-in adjustable Shock Sensor.
- Remote Panic. • 114DB siren.
- Manual Override. • Active Operation.
- Self Contained Electronics.

The AA-9141 provides total point of entry protection. Its built-in shock sensor monitors vibrations, and can be adjusted specifically to your car's sensitivity. Any forced entry through the glass, doors and sunroof or T-tops will instantly trigger the siren. Easy operation. Lock the car, then press button on keyring transmitter.

7-BAND GRAPHIC EQUALIZER/AMPLIFIER with LED POWER METER

MODEL AMP-760 OUR PRICE $37.50

- Five segment multi-color LED power display. • Built-in front/reer fader control.
- On/off switch with indicator LED. • 50-20,000 Hz response • 40 watt max. output power.
- Can be used with all standard common-ground sound systems. • Size: 1"H x 6"W x 3-3/4"D.

7-BAND 50 WATT GRAPHIC EQUALIZER/AMPLIFIER with POWER METERS and CD INPUT

MODEL AMP-770 OUR PRICE $59.00 NEW!

- Dual LED power meters monitor output of each channel. • 7-Band graphic equalization.
- CD input with volume control permits use with portable CD or cassette players.
- LED indicator in each slide control with mid-position detent. • 20-30,000 Hz response.
- Built-in front / rear speaker fader conrol. • Size: 6⅝"W x 1⅛"H x 6"D.
- Can be used with any system including floating-ground and bridged types.

7-BAND 200 WATT COMPUTER-CONTROLLED EQUALIZER/ AMPLIFIER with SPECTRUM ANALYZER and MEMORY

MODEL AMP-792 OUR PRICE $99.00

- 49-LED display matrix graphically illustrates equalizer settings or spectrum analysis of program material.
- 4 memory settings allow instant recall of equalization curves.
- Soft-touch back-lit electronic up/down switches adjust 7-bands of equalization.
- Built-in volume and fader slide controls. • Selectable spectrum or equelization curve display.
- Low-level (RCA) and high-level (floating-ground compatible) inputs.
- 4-channel (50 watts x4) power amplifier. • Size: 1-3/4"H x 6"W x 6-1/2"D.

GOLD SERIES 4-CHANNEL BRIDGEABLE AMPLIFIER

MODEL PB-600 OUR PRICE $179.95 NEW!

- 4-channel bridgeable to 2-channel amplification.
- Adjustable gain conrol.
- 4 x 75 watts power RMS, (300W).
- 4 x 150 watts, rated power (600W).
- 2 x 150 watts power RMS, (300W).
- 2 x 300 watts, rated power, (600W)
- Remote automatic on / off.
- Gold plated RCA line inputs.
- Screw type speaker connections for 4 speakers.
- High speed power induction system.
- Short circuit protection.
- Thermal overload protection.
- High / Low level input.
- DIN input. • Floating or common ground hook-up. • LED power indicator.
- DC to DC converter circuit. • Compact disc (CD) ready. • 4Ω speaker impedance.
- Special noise cancellation circuitry. • Pyramid type heavy duty heet sinks.
- S / N ratio: better than 70dB. • Power output: 150W x 4 less than 0.05% THD.
- Frequency response: 20-20,000 Hz. • Size: 276(L) x 280(W) x 68(H) mm.

CALL US MONDAY THRU FRIDAY 8:00 AM to 6:30 PM • SATURDAY 9:00 AM to 3:00 PM E.S.T.

AUDIOVOX FLAT-FACE AM/FM/MPX RADIO with AUTO-REVERSE CASSETTE PLAYER 5-BAND GRAPHIC EQUALIZER DOLBY® NR and QUARTZ CLOCK *Electronically Tuned*

MODEL AV-235 OUR PRICE $219.95 *NEW!*

FEATURES
- High style flat-face design.
- Auto-reverse cassette player.
- Locking fast-forward and rewind control.
- Self-memory system (SMS) automatically sets memories to strongest stations.
- Back-lit LCD panel for display of frequency, time, functions. • 4-way balance controls.
- Display priority switching for frequency or time readout. • Built-in 40 watt power amplifier.
- Built-in 5-band graphic equalizer for precise tonal adjustment.
- 12-station electronic memory (6AM/6FM). • Dolby® NR. • Size: 7"W x 2"H x 5-1/2"D.

"THEFT PREVENTION" REMOVABLE CHASSIS SYSTEM with Model AV-235

MODEL AV-236 OUR PRICE $249.00 *NEW!*
- Slide-out bracket which allows owner to remove unit from car for safe keeping.
- Front panel handle provides for easy removal and carrying.
- Chassis includes a memory circuit with back-up battery to maintain pre-set stations and clock time. Features for the AV-235 are listed above.

AUDIOVOX AM/FM/MPX RADIO with AUTO-REVERSE CASSETTE PLAYER and QUARTZ CLOCK *Electronically Tuned*

MODEL AV-936 OUR PRICE $119.95

FEATURES
- Back-lit LCD displays frequency, time and functions
- 18-station electronic memory (6 AM / 12 FM).
- Automatic SEEK and PRE-SET SCAN tuning modes with Local/Distant sensitivity.
- Self-memory system (SMS) automatically sets memories to strongest stations.
- Auto-reverse cassette player with pushbutton eject. • 4-way balance control.
- Locking fast-forward and rewind controls. • Full-range tone control.
- Display priority switching for frequency or time readout. • 14 watt maximum output power.
- Compact chassis with adjustable shafts fits most cars. • Size: 7"W x 2"H x 5-1/2"D.

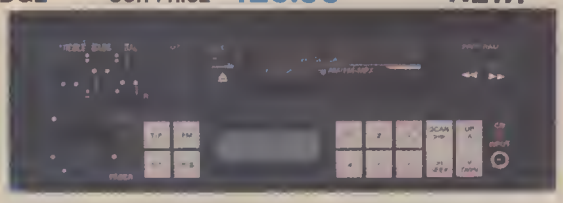
AUDIOVOX 50 WATT AM/FM/MPX RADIO with AUTO-REVERSE CASSETTE PLAYER, DOLBY® NR and QUARTZ CLOCK *Electronically Tuned*

MODEL AV-939 OUR PRICE $179.00

FEATURES
- Back-lit LCD panel displays frequency, time and functions.
- 18-station electronic memory (6 AM / 12 FM).
- Automatic SEEK, SCAN and PRE-SET SCAN tuning modes with Local/Distant sensitivity switching.
- Self-memory system (SMS) automatically sets memories to strongest stations.
- Auto-reverse cassette player with pushbutton eject. • Dolby® NR.
- Locking fast-forward and rewind controls. • Metal tape capability. • 4-way balance control.
- Separate bass and treble tone controls. • 50 watt maximum power output.
- Display priority switching for frequency or time readout.
- Compact chassis with adjustable shafts fits most cars. • Size: 7"W x 2"H x 5-1/2"D.

PYRAMID FLAT NOSE ETR-AM/FM/MPX DIGITAL RECEIVER/STEREO CASSETTE PLAYER

MODEL 1002DGL OUR PRICE $125.00 *NEW!*



FEATURES
- Auto reverse tape function.
- Metal tape equalization.
- 4-way fader control.
- CD auxiliary input w/L.E.D. indicator.
- Digital quartz clock. • 12-station presets. • Automatic seek/scan tuning.
- Automatic Lo/Dx with Stereo/Mono blend. • Full night illumination.
- Illuminated slide control for bass/treble/balance. • Station program memory search.
- RCA line outputs for use with optional; amplifier. • Radio monitor during tape FF/RW.
- Pushbutton controls for up/down channel tuner. • Size: 6⅜"D x 7⅞"W x 2¼"H.

AUDIOVOX REMOVABLE FLAT-FACE AM/FM/MPX RADIO with STEREO CASSETTE PLAYER and QUARTZ CLOCK

MODEL AV-216 OUR PRICE $139.95 *NEW!* *Electronically Tuned*

- "Theft-Prevention" slide out radio and bracket system allows owner to remove unit from car for safe-keeping.
- Front panel handle permits easy removal and carrying. • 4-way balance control. • Size: 7-1/8"W x 2-1/8"H x 6-1/2"D.
- Includes rechargeable back-up battery to maintain pre-set stations and clock time.
- Flat-face design mounts in foreign and domestic vehicles. • Full-range tone control.
- Back-lit LCD panel displays frequency, time and functions. • 10 watt maximum output power.
- Self-memory system (SMS) automatically sets memories to strongest stations.
- 12-station electronic memory (6AM/6FM). • Display priority switching for frequency/time readout.
- Auto SEEK with Local/Distant sensitivity switch. • Locking fast-forward and pushbutton eject.

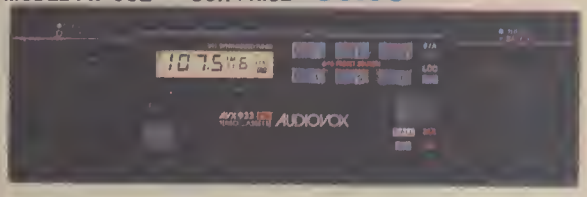
AUDIOVOX AM/FM/MPX RADIO with STEREO CASSETTE PLAYER

MODEL AVX-3000 OUR PRICE $44.00

FEATURES
- Slide-load cassette mechanism. • Stereo balance control.
- Locking fast-forward and eject control. • FM local-distant reception switch.
- Pushbutton band selection. • 14 watts maximum stereo power.
- Automatic tape-radio changeover circuit. • FM stereo light.
- Adjustable shafts. • Dimensions: 7"W x 2"H x 5"D.

AUDIOVOX AM/FM/MPX RADIO with STEREO CASSETTE PLAYER and QUARTZ CLOCK *Electronically Tuned*

MODEL AV-932 OUR PRICE $89.00



FEATURES
- Function knobs are back-lit for easy night-time use.
- 12-station (6 AM / 6 FM) electronic memory with individual pushbuttons.
- Automatic SEEK tuning with local/distant sensitivity switch.
- Frequency, time and functions displayed o back-lit LCD panel.
- Locking fast-forward and cassette eject control.
- Full-range tone and stereo balance controls. • Display priority switching.
- 10 watt maximum output power. • Size: 7"W x 2"H x 5-1/8"D.

AUDIOVOX 130 WATT HI-FI POWER AMPLIFIER

MODEL AMP-535 OUR PRICE $79.00

FEATURES
- High and low-level input capabilities. • Remote on/off switching. • Power indicator LED.
- Compatible with common and floating ground stereos. • Low voltage indicator.
- Adjustable sensitivity low-level RCA inputs.
- Quick-connect spring-loaded input & output terminals.
- Thermal and overload protected output stage. • Designed for under-seat or trunk mounting.
- Massive heat-sinks for efficient heat transfer. • Size: 8"W x 2½"H x 8"D.

MIDLAND 120 CHANNEL SINGLE SIDEBAND/AM MOBILE TRANSCEIVER

MODEL 79-265 OUR PRICE $169.95 *NEW!*

Midland's 120 channel, professionel class Model 79-265 mobile redio has operational features and rugged construction usually found only on commercial two-way radios.

FEATURES

- Full 120 channel operation.
- 12 Watts peak envelope power output on SSB.
- Controls: On/Off/Volume, Variable squelch, LSB/AM/USB switch, Variable mic gain, Clerifier, SWR CAL, RF gain, Noise Blanker, ANL, PA/CB and instant Channel 9 switches, Channel selection knob, Push-to-talk bar on mic.
- Aluminum FIN heat sink.
- "J" FET mixer. • Crystel filter.
- Power Requirement: 13.8 VDC, positive or negative ground.
- Size: 7½"W x 2⅛"H x 8⅞"D.
- Accessories supplied: 500Ω mic with coil cord and plug in connector. Mic clip. Slotted mounting bracket and hardware.

MIDLAND DELUXE 40 CHANNEL CB

with VHF Weather Monitor

MODEL 77-162

OUR PRICE

$109.95 *NEW!*

FEATURES

- VHF weether monitor with three different N.O.A.A. channels.
- Extra large amber high intensity LED channel readout system.
- Two-channel memory switch.
- Proportional sequential LED radio monitoring system.
- Separate weather LED system.
- Built in P.A. paging system.
- Full ETR. • RF gain control.
- Separate transmit indicator. • Noise limiter switch. • Positive end negative ground.
- Last channel memory recall system. • Screw-on 4 pin metallic microphone plug.
- Quick disconnect brecket end DC cord. • Double-layered RF output heat sink.
- High-tech styling. • Size: 6¼"W x 2 1/16"H x 7"D.

MIDLAND 5-WATT, 3-CHANNEL CB HAND HELD WITH SWITCHABLE HI/LO POWER

MODEL 75-764B

OUR PRICE $69.95 each

- Operates on any 3 of the 40 CB channels: CH 11 crystals installed, 2 channel positions open.
- Transmitter rated for nominel 5-watt input power operation with high level modulation-switchable to battery saver 2-watt low power.
- Superheterodyne receiver has tuned RF stage.
- Ceramic IF filter. • Autometic gain control.
- Variable squelch.
- Pushbutton L.E.D. battery check light.
- Uses 12-V power from eight "AA" dry cells, ten ni-cad "AA" cells, or external sources (batteries not included).
- Jacks for external power, charges, microphone, complete with carrying case.
- Metal cabinet 8¾" x 3¼" x 2⅛".

2-WATT, 3-CHANNEL LIGHTWEIGHT HAND HELD CB

MODEL 75-719B OUR PRICE $44.00 each

- Operates on any 3 of the 40 CB channels. • Superheterodyne receiver has tuned RF stage.
- Channel 11 crystals installed, 2 channel positions open. • Automatic gain control.
- Full range variable squelch control to block out background noise.
- Transmitter rated for nominal 2-watt input power operation with high level modulation.
- Operates on Uses 12-V DC from eight "AA" size batteries (not included).
- Metal cabinet with chrome trimmed die-cast face plate and jacks for battery cherger, earphone.
- Pushbutton L.E.D. battery check light. • Size: 7⅞" x 2⅞" x 2⅛".

MIDLAND 40 CHANNEL 5 WATT HAND-HELD CB

MODEL 75-790 OUR PRICE $99.00

Midland's compact new 40-channel five-watt portable model 75-790 is the ultimate in hand-held performance with features usually found only in advanced mobile radios such as: instant channel 9; electronically synthesized (no crystal required); adjustable squelch and automatic noise limiter; seperate LEDs for transmit and receive; analogue meter to measure received signal, transmit power and bat tery condition. Choice of power levels, one or five wetts. Jack provided for recherging niced batteries. Carrying case included. Size: 9½"H x 3"W x 3¾"D. Receiver sensitivity: 1μV for 10 dB (S + N)/N. Freqency control: Electronically synthesized, 40 channels.

MIDLAND 40-CHANNEL MOBILE CB TRANSCEIVER

MODEL 77-149

OUR PRICE $89.00

- 40-Channel up/down scan tuning on microphone.
- Highest legal power output 4 watt.
- All-metal cabinet.
- Quick disconnect DC hook up.
- Green LED channel display.
- External speaker jack.
- S/RF LED Bar-type meter.
- Instant access to CH 9 emergency or highway CH 19 switch.
- Public Address PA/CB switch.
- TX indicator. • Modulation indicator.
- ANL (Automatic Noise Limiter) switch
- RF gain control for local or distant selection.
- Size: 5"W x 1¼"H x 6"D.
- Receiver sensitivity: 0.8μV for 10 dB (S/N)/N. • Power requirements: 13.8 VDC neg. or pos. ground

DESCRIPTION

The 77-149 has NEW MIC-RO-TUNE channel selection system, for fingertip control of changing channels **on top of the microphone.** No fumbling for the controls. Choice of fast or slow speed. And of course, e large green digital channel readout on the radio.

And for much easier monitoring of your incoming signal strength or RF power output, the 77-149 offers a new "sliding scale," electronic bar graph S/RF meter. As signal strength increases, the meter moves sequentially through e multi-colored display bar for an instant reading at e glance.

MIDLAND "POWERMAX" OVER-THE-ROAD CB TRANSCEIVER

MODEL 77-250

OUR PRICE $119.95

A specially designed over-the-road communication unit with e combination of user friendly features.

FEATURES

- A deluxe ETR tuning system with a new J-Fet front end for high sensitivity reception.
- ANL/NB and a Dynamic Noise Filter (DNF).
- Instant Channel 9 switch.
- Channel 19 memory.
- Bright/dim RF gain. • Mic gain. • SWR system and more. • Size: 7¼" x 7¼" x 2¼".

MIDLAND COMPACT 40 CHANNEL PORT-A-PAK MOBILE/PORTABLE TRANSCEIVER

MODEL 77-805

OUR PRICE $109.95

Convertible from in-vehicle use to true portable use. center-loaded antenna for use in portable mode, new high power 8 "C" cell bettery pack for up to 4 times battery life of previously used AA pen cells (batteries not included).

FEATURES

- On-demand lite switch for L.E.D. channel display.
- Mobile mounting brackets with quick disconnect DC power cable.
- Lighted Bar-type S/RF power indicator.
- Portable carrying case with shoulder strap and mike clip.
- Transmit power: 4 watts switchable to 1.0 watts for longer batter life.
- 13.8 volt DC neg. ground. • Size: (with case) 4¾" x 2¾" x 7", without case 4" x 1" x 6".

MIDLAND 40 CHANNEL MINIATURE MOBILE CB TRANSCEIVER

MODEL 77-104

OUR PRICE $44.00

- Super-compact (4" x 1" x 6") and easy to install.
- Front loaded microphone.
- Built-in speaker.
- Bar-type L.E.D. signal strength/RF output meter.
- All-metal cabinet with quick release mounting bracket.
- External speaker jack.
- Illuminated L.E.D. channel indicator.
- 4 Watt output.
- 13.8 volt DC negative ground.

SCANNERS / TRANSCEIVERS

MAXON® VOICE-ACTIVATED FM 2-WAY RADIO

Small and Lightweight Permits Hands Free Communication

Available in Channel "E" or Channel "A"

MODEL 49-SA

OUR PRICE $34.95 each

2 FOR $65.00 NEW!

- Built-in VOX circuit lets user transmit by just speaking into the headset mic.
- VOX-Bypass Switch for push-to-talk operation, easy to reach top-mount PTT button.
- Large 3-position volume and mic sensitivity switches, battery low L.E.D. indicator.
- Lightweight adjustable headset with whip antenna, boom mic and wind screen.
- 49 MHz dual conversion superheterodyne receiver for crisp, clear reception.
- Frequency Range: 49.830-49.890 MHz (1 Channel within range). • Power Source: 9VDC.
- Size: 5" x 2½" x ⅞". Weight: 9 oz. approx. • Range: ¼ mile (400 meters).

MAXON FM TRANSCEIVER

49 MHz FM Transceiver Uses Tiny Earphone Mic. Ideal for High Noise Environments, Discreet Applications

Available in Channel "E" or Channel "A"

MODEL 49-EA

OUR PRICE $49.95 each

2 FOR $95.00 NEW!

- Mic fits comfortabley in aar; voice transmission is accomplished through vibrations in the ear canal.
- Built-in wire antenna permits use with protective headgear necessary for industry and public safety.
- Transmitting Sys: Manual large top-mount push-to-talk button.
- Two-color LED indicates "busy" or "TX".
- Dual conversion superheterodyne receiver delivers optimal clarity.
- Frequency Range: 49.830-49.890 MHz (1 channel within range).
- Power Source: 9 VDC. (not included)
- Size: 5" x 2½" x ⅞". Weight: 9 oz. approx. • Range: ⅛ mile (200 meters).

MAXON *"5-CHANNEL!"* FM TRANSCEIVER

49 MHz two-way is designed for discreet or high-noise applications—features ear mic and remote PTT.

MODEL 49-F5

OUR PRICE $69.95 each

2 FOR $130.00 NEW!

- Unique mic fits comfortably in the ear, voice is transmitted via vibrations in the auditory canal.
- Offers the versatility of hands-free, voice-activated or push-to-talk (on-unit and remote) TX.
- Built-in wire antenna permits use with protective headgear. Sturdy clip attaches unit securely to the operator's belt.
- VOX activated by adjustable mic sensitivity control—eliminates false triggering caused by background noise.
- Additional controls include: click-retent channel selector, Hi-M-Lo volume, Off/PTT/VOX switch, two-color LED "TX/Busy" indicator.
- Dual conversion superheterodyne receiver delivers optimal clarity. • Range: ⅛ mile (200 meters).
- Remote PPT button has 4-ft cord that plugs into jack on unit's side.
- Frequency Ranges (5): (1) 49.830, (2) 49.845, (3) 49.860, (4) 49.875, (5) 49.890.
- Power Source: 9VDC (not included). • Size: 5¼" x 2¾" x 1". Weight: 7½ oz.

MAXON WEATHER / TIME RADIO

Versatile radio receives the latest weather information and precise time broadcasts. Has world time zone chart.

MODEL WX-2 **OUR PRICE $29.90 each** ***NEW!***

- Receives Weather Service broadcasts on 162.550, 162.475, or 162.400 MHz bands; WWV National Bureau of Standards time broadcasts on 5, 10, or 15 MHz bands.
- Pushbutton operation for both functions. • Crystal controlled for clear, drift-free reception.
- Operates on standard 120V AC power (with 12V AC/DC adaptor, not included); or (1) 9V DC battery (not included). Has battery backup in case of power failure.
- "Power on" LED indicator, variable volume, telescopic antenna, and RCA jack for external antenna (not included).
- Marine-treated to resist moisture.
- Size: 5⅝"W x 4½"D x 1¼"H. Weight: 12.5 oz.
- Up to 50 mile range for N.O.A.A. reception.

COBRA SUPER HETERODYNE TRAPSHOOTER™ RADAR DETECTORS

Perfect For Any Vehicle: Cars, Trucks, Motorcycles

MODEL RD-2110

OUR PRICE $65.00

The RD-2110 radar detector offers the discriminating user high-performance radar protection and contemporary styling in a very affordable package.

- Responds to "X" and "K" plus an extended "K" band sensitivity for detection of "pulse-type" traffic radar guns.
- Highway/city switch. • Green LED power indicator. • Audible alerm.
- Red LED alarm signal indicator. • "No False" and "Lockout" circuitry reduces false alarts.
- Comes with: adjustable removable Dash/Visor mounting bracket, detachable 9 ft. DC fused power cord with spare fuse, power cord retaining clips, Velcro fasteners for dash mount.
- Sensitivity: "X" Band-109dBm/cm² (typical). "K" Band-113dBm/cm² (typical).
- Size: 2-3/4"W x 1/4-3/4"H x 3-7/8"D. Weight: 5 oz.

MODEL RD-3120 **OUR PRICE $99.95** Same Features As The RD-2110 Plus

- Test/Mute Button: Tests that the Cobar Trapshooter is working properly when no radar signal is present. Lets you adjust the volume or silence the audible alarm when in the field of a constant radar signal.
- Automatic System Test. • Signal Strength Meter. • Power On/Off volume control.
- Easy installation...just plug power cable into cigarette lighter. • Dim switch.
- Small and compact...only 2-3/4"W x 1/4" - 3/4"H x 3-7/8"D. Weight: 5 oz.

MODEL RD-3170 **OUR PRICE $179.95** ***ULTRA DETECTOR HAS 3 SELECTABLE ALARMS***

- 3 Selectable Alarms: Voice alarm tells you, "Be careful, slow down."; Melody Alarm sounds a musical warning, Beep Alarm sounds a "beep" for "X" band or a "brap" for "K" band.
- Signal Strength Meter. • Alarm Signal Indicator. • Aluminum Case.
- Sensitivity: X band: —117dBm/cm² (typical), K band: —115dBm/cm² (typical).Power: 13.8 volts DC @ 250mA. Neg. ground only. • Size: 2-3/4"W x 1/4-3/4"H x 4-1/4"D. • Weight: 7 oz.
- Accessories supplied: Adjustable dash visor mounting bracket, suction cup type windshield mounting bracket, 6 ft. detachable curly power cord with cigarette lighter plug and 9 ft. straight power cord, leatherette carrying case. • Other features same as RD-3120.

COBRA SSB BASE

MODEL 2000GTL

REG. $599.95

OUR PRICE

$430.00

Here's a precision AM/SSB base station with attractive component styling. From its sleek aluminum front panel and over-sized dual meters, to its built-in 6-digit frequency counter, the 2000GTL is a real beauty, featuring: Volume, ON/OFF control, Squelch, coarse and fine Voice Lock, DynaMike Plus, RF gain, SWR, CAL control, tone control, Noise Blanker, Noise Limiter, mode control (LSB/AM/USB), LED channel display and more. Size: 15"W x 5¾"H x 13⅜"D.

COBRA SSB MOBILE

MODEL 148GTL

REG. $269.95

OUR PRICE

$169.95

SPECIAL!

The 148GTL is a no compromise, precision AM/SSB mobile unit for the discriminating citizen's band operator who demands maximum performance. Features: DynaMike, Volume, ON/OFF control, Squelch, RF gain, SWR CAL control, Voice Lock, S/RF/CAL/SWR switch, LSB/AM/USB mode switch, switchable automatic noise limiting and noise blanking, CB/PA switch, HI/LOW tone switch, meter and LED brightness control, channel selector, LED display, receive and transmit indicator, illuminated S/RF/SWR meter, PA and external speaker outputs, maximum legal power plus plug-in mike and brackets. Size: 2-3/8"H x 7-7/8"W x 9-1/4"D.

COBRA SSB MOBILE

MODEL 146GTL

OUR PRICE $59.00 *SPECIAL!*

Ideal for boats, stadiums, outdoors, etc. 10-watt rated power output. Projects your voice clearly with excellent range. Lightweight, high impact plastic. Uses 6 'C' cell batteries (not included). Speaker edges ere protected by e rubberized plastic.

FEATURES
- Designation: 10W, shoulder type transistorized megaphone.
- Power output: Rated: 10W, Maximum: 16W.
- Power consumption: Below 16W (at rated output).
- Effective distance: Approx. 270 ft.
- Power source: 6 C size cells, duration approx 6 hour.
- Microphone: Anti-howling, dynemic type microphone. • On/off switch. • Rotary voluma control.
- Coiled cord. • Shoulder belt and mike hangers on body and belt.

TRIPP LITE
POWER INVERTERS
Solid State Square Wave
12 VDC to 117 VAC

Quality solid state, efficient units deliver 117 VAC output from a 12 VDC input supply. Ideal for use in car, trailar, boat, truck, camper, for lighting, radios, phonos, TV, business machines, tools, shavers, tape recordars, etc. Selaction of the model to serve your needs dapendent upon appliances you wish to use. Inverters ara not recommanded for use with refrigerators, air conditionars, fry pans, toasters, coffee pots, irons, heater, heavy currant devices end other raective loads. Invertars are available in two series. STANDARD series for operating appliances and tools in which frequency drift is not critical. FREQUENCY CONTROLLED series for AC output voltage at 60 Hz±1 Hz.

STANDARD SERIES

TRAVELER'S POWER INVERTER MODEL PV-200 OUR PRICE $94.95
200 watts continuous power or 220 watts intarmittant. Equipped with single outlet receptacla. Fusa protected. Size: 3-1/2" x 6-1/2" x 5-1/2". Shpg. Wt: 7 lbs.

POWER INVERTER MODEL PV-400 OUR PRICE $144.95
400 watts continuous power or 450 watts intermittent. Equipped with on/off switch, single outlet receptacle end fuse protection. Siza: 3-1/2" x 6-1/2" x 9". Shpg. Wt: 14 lbs.

POWER INVERTER MODEL PV-550 OUR PRICE $209.95
550 watts continuous power or 600 watts intarmittent. Provided with polairty protection on input circuit and pilot light to indicate overloads. Has on/off switch and two grounded type outlet receptacles. Siza: 5" x 9-1/2" x 9". Shpg. Wt: 19 lbs.

FREQUENCY CONTROLLED SERIES

POWER INVERTER MODEL PV-250FC OUR PRICE $209.95
250 watts continuous power or 275 watts intarmittant. Operates frequency sensitive devices. Single AC receptacla, fusa protected, on/off switch. Size: 3-1/2" x 6-1/2" x 9". Shpg. Wt: 16 lbs.

POWER INVERTER MODEL PV-500FC OUR PRICE $316.95
500 watts continuous power or 550 watts intermittent. Features — polarity protection on input circuit, pilot light "overload", fuse protection, 2 grounded type receptacles for AC output, on/off switch. Jack on front panel facilitates remota on/off operation. Size: 5" x 9-1/2" x 9". Wt: 19 lbs.

POWER INVERTER MODEL PV-1000FC OUR PRICE $469.95
1000 watts continuous power or 1100 watts intermittent. Polarity protection provided on Input circuit. Pilot light indicates overload. Has 2 grounded type AC outlet receptacles, circuit braaker protection, on/off switch. Jack on front panal facilitates ramota on/off operation. Siza: 5" x 9-1/2" x 17". Shpg. Wt: 45 lbs.

SNAP IT POSI CHARGE
Charge Your Battery Without Lifting The Hood
MODEL POS-1

OUR PRICE $19.95

You don't even have to lift your car hood. Just plug one ent into your car's lighter and run tha cable across and into e running car's lighter. Wait a few minutes, than start right up!

BP® 4 AMP REGULATED DC POWER SUPPLY
MODEL SU-4A

OUR PRICE $29.50

Binding Post Terminals.
- Short-Circuit Protection.
- Input: 115V AC 60 Hz.
- Output: 13.8V DC —3 AMP constant -5 AMP surge.
- Size: 7-3/4"D x 4-1/4"W x 2-1/2"H.

BP® 20 AMP PRECISION REGULATED DC POWER SUPPLY
MODEL SU-20A

OUR PRICE $99.00

- Output: 13.8V DC —20 AMP fully regulated low ripple.
- Input: 117V. AC 60 Hz —Fuse Protected.
- Size: 11-1/2"D x 4-3/4"H x 7-3/4"W.
- Electronic overload protection with instant automatic reset.

BP UNIVERSAL DC ADAPTOR
MODEL CB-200C

OUR PRICE $4.95 each 10 FOR $40.00

3 way switch gives instant selection of 12 volt to 6V., 7.5V., 9V. DC at 300 MA output. Use your own car or boat battery to power your portable tape player. CB set, portable radio, etc. Plugs in cigaretta lightar receptacla. Comes with 4 way universal plug and battery snap. Contains slide switch end polarity reversa. Peg packaged.

MODEL CB-280 800 mA. **OUR PRICE $6.95 each 5 FOR $30.00**

ORDER BY PHONE: Out Of State TOLL FREE 800-645-9518 • NYS TOLL FREE 800-832-1446 • FAX: 516-435-8079

HOUSE & AUTO ACCESSORIES

FORDHAM 32 PIECE TOOL KIT

MODEL FTK-4

OUR PRICE $49.95

The FTK-4 is an all purpose tool kit for the home or automobile. Tools are displayed in a heavy duty blue case for easy access and tidy storage.

CONTENTS:

- 5—Socket pieces, 1/2", 10mm, 12mm, 13mm, 17mm, 19mm.
- 1—1/2" DR. Ratchet handle with rubber grip.
- 1—Spark plug socket 1/2" x 21mm.
- 1—Extension bar 1/2" x 5".
- 1—4-Way cross wrench 5/8" x 15".
- 3—Screwdrivers, regular point.
- 3—Screwdrivers, phillips point.
- 1—Hammer 8 oz. • 1—Flexible light.
- 5—Combination wrenches 8-17mm.
- 1—Water pump plier 9-1/2".
- 1—Insulated cutting plier 6".
- 1—Auto voltage tester. • 1—Insulated tape.
- 4—Hex key wrenches 4-8mm.
- 1—Measuring tape 3m/10 ft.

FORDHAM 69 PIECE TOOL KIT

MODEL FTK-5 **OUR PRICE $39.95**

Tools are displayed in an attractive black plastic case.

CONTENTS:

- 15 - Piece socket set 5/32" - 11/16".
- 1 - Flexible ratchet 10".
- 1 - Insulated cutting plier 6".
- 1 - Adaptor.
- 1 - Spark plug socket 3/8" x 13/18".
- 1 - Spinner.
- 1 - Extension bar.
- 1 - Water pump plier 9-1/2".
- 6 - Combination wrenches 3/8" - 11/16".
- 6 - Auto gauges.
- 3 - Screwdrivers.
- 1 - Crimping tool 8".
- 1 - Insulated tap.
- 25 - Terminals.
- 6 - Hex key wrenches 1/16" - 3/16".

AIR COMPRESSOR with WORKLIGHT PRESSURE GAUGE and FLASHING HAZARD LIGHT

MODEL AC-767

OUR PRICE $29.95

DESCRIPTION

Inflate tires, balls, boats, mattresses, etc., with this new Mini Compressor. It features: 12 ft. cord, with 12V lighter plug; 2.5 ft. air hose, with positive lock valve; two nozzle adaptors, on sports needle; emergency light, for repair; flash signal light, pressure gauge, and low power consumption. Power required: 12V, 10 amps.

WEN ORBITAL CAR WAXER

MODEL 10-W

OUR PRICE $69.95

DESCRIPTION

Get professional results with the Wen Orbital Car Waxer. Its random 3000 orbits per minute duplicates your hand motion at high speed. Tapered wrap-around textured non-slip handle allows flush buffing. It includes: 2 terry cloth bonnets; applicator bonnet; and luster buff bonnet. Apply wax evenly, remove oxidation and buff and polish for a brilliant finish.

TRU-TEMP OUTSIDE AUTO THERMOMETER

MODEL 1198

OUR PRICE $27.50

DESCRIPTION

The Tru-Temp® Auto Thermometer accurately measures outside air temperature making the driver aware of hazardous freezing or excessive heating conditions. It's the first thermometer developed for mounting on the outside of a vehicle that actually works.

It's made of rugged bi-metal construction, durable zinc housing, tough acrylic scale and lens. It's calibrated for a vehicle in motion with accuracy within 1°.

MIDLAND "READY RESCUE II" EMERGENCY 40 CHANNEL CB

True HI Power Walkie Talkie Fully Portable with Battery Pack included

MODEL 77-911A/18-911

OUR PRICE $69.95

An ultra compact 40-channel transceiver comes with car lighter adaptor for use as an emergency Citizensband mobile. Comes with battery pack that clips onto bottom of 77-911A to convert it to full portable operation.

FEATURES

- 3/8" high L.E.D. channel readout.
- Channel 9 emergency button.
- Electronic up-down channel tuning.
- L.E.D. bar light for "S" and "RF" readings.
- Computer circuitry, volume, squelch and accessory jacks.
- Complete with cigarette lighter plug, flexible antenna, mobile magnetic antenna mount, cable, carrying case and battery pack (uses 8 alkaline "AA" batteries not included).
- 4 watts total power. • 12-V DC neg. ground.
- Size: 2-3/4" x 6-7/8" x 13-3/8".

AUDIOVOX COMPLETE AUTO SECURITY SYSTEM

Full-Function Remote Controlled System

MODEL TSP-400 **OUR PRICE $119.95**

DESCRIPTION

The TSP-400 provides total point of entry protection by tying into the vehicle's existing door switches. Its built-in shock sensor monitors vibrations, and can be adjusted to your car's specific sensitivity. Any forced entry through the glass, sunroof or T-tops will trigger the siren.

It also features the added protection of a remote panic switch for emergency siren activation. For those times when you want to deliberately attract help, firmly press the button on your key ring transmitter for 3 seconds. This will automatically activate the siren.

An added feature of the TSP-400 is its dash mounted status condition L.E.D. light. This allows you to monitor activity around your car while you are out. A slow, steady flashing red light indicates that your system is armed. If an intrusion has taken place, the dash mounted L.E.D. will flash rapidly, indicating that your alarm was activated while you were away from the vehicle.

Power Door Lock Interface: The TSP-400 will interface with any 2 or 4 door existing electric power door lock system, adding remote door lock and unlocking capability. Arming and disarming the alarm will also lower and raise the existing power door locks.

SYLVANIA DRIVING LIGHT KIT *SEE FARTHER-DRIVE SAFER*

MODEL DLK-2

OUR PRICE $49.95 per pair

Light up the night with Sylvania Quartz Halogen Driving Lights. Increase night driving vision and safety. They add invaluable reaction time between you and anything else barrelling down the road. A few extra seconds on the road can be a lifetime. Double you light output of your halogen headlights.

Kit contains: 2 lights, 2 covers, 30 amp relay, illuminated switch, 20 ft. of wire and all necessary hardware. Easy installation. Above or below bumper mounting. Complete Instructions included.

CLEAR FOG LIGHT KIT

MODEL CFK-2 **OUR PRICE $49.95 per pair**

Cuts Thru Fog, Rain, Snow and Haze. Kit has the same features as the DLK-2.

BP SUPER TORCH

MODEL CH-122

OUR PRICE $17.95

DESCRIPTION

The CH-122 is a 6-in-1 portable safety lamp with nylon strap. Use it in emergencies, car repair, camping, fishing, etc. Six Settings: Searchlight, Fluorescent lamp, Yellow flashing, Red warning, combination yellow and fluorescent, and combination of yellow and red warning lamp. Can be powered by using car adaptor provided or by 6 "D" cell batteries (not included).

X-10® POWERHOUSE SECURITY SYSTEMS & TIMERS

#1 In Home Control

MINI TIMER

MODEL MT-522 OUR PRICE $32.00

A Mini Controller, Timer and Alarm Clock all in one!

Controls up to 8 Modules with the touch of a single button and dims lights too. Can automatically turn on and off up to 4 Modules twice a day. Can be set for Daily, Once or Security Modes. Has a battery back-up and a built in beeper so you can use it as an alarm clock too.

MAXI CONTROLLER

MODEL SC-503

OUR PRICE $22.50

DESCRIPTION

Instantly control 16 lights and appliances throughout the house with the push of a button. From one convenient location. Special feature keys: dim and bright, all lights, all units off.

MINI CONTROLLER

MODEL MC-260

OUR PRICE $12.95

DESCRIPTION

Instantly control 8 lights and appliances throughout the house with the push of a button. From one convenient location. Special key features: dim and bright, all lights on, all units off.

TELEPHONE RESPONDER CONTROLLER SET

MODEL TR-2700

OUR PRICE $42.50

DESCRIPTION

Consists of one TR-270 Telephone Responder/Controller, and one TR-274 Remote Telephone Transmitter. Plugs into standard telephone jack and standard 120V watt outlet. Enables you to telephone your home from anywhere and turn 8 lights and appliances on an off. You can light up your home, cool it off or heat it up before you arrive.

Remote Telephone Transmitter

Model TR-274 .....$14.95

To be used with TR-270. Transmits Command signals over the telephone to the Responder/Controller in your home.

THERMOSTAT CONTROLLER SET

MODEL TH-2867

OUR PRICE $34.95

DESCRIPTION

Consists of one TH-280 Temperature Regulator, one LV-267 Low-Voltage Adaptor and one Appliance Module. Allows control of existing heating and air conditioning thermostats. Low-Voltage Adaptor is plugged into appliance module controlled in turn by a Timer or TR-2700 Telephone Responder/Controller.

REMOTE CONTROLLED SECURITY SYSTEM

MODEL RC-5000

OUR PRICE $39.75

DESCRIPTION

Consists of one Radio Frequency (r.f.) Transmitter (RT-504) and one Transceiver/Appliance Module (RR-501). The RT-504 transmits to the RR-501 to control whatever you plug into it — from inside or outside your home. The RR-501 also retransmits (over your house wiring), the signals it receives from the RT-504. This lets you remotely control up to 8 standard X-10 Modules and even dim lights!

Radio Frequency (r.f.) Transmitter Model RT-504 .....$14.95

Sends r.f. signals to the RR-501 to control lights and appliances from inside or outside your home. Gives you remote control from multiple locations - purchase one for each car and several for around the house.

R.F. Transceiver/Appliance Module

Model RR-501 .....$24.95

Receives signals from the RT-504 and re- transmits (over your house wiring) to control up to 8 standard X-10 Modules. Set one RR-501 to control Modules set to 1 thru 8 and purchase another RR-501 to control Modules set to 9 thru 16. This lets you control up to 18 Modules from inside or outside your home.

MODEL	OUR PRICE
LM-465 LAMP MODULE	$14.95

Lets you turn lamps on or off anywhere in the house. Even dim or brighten them. Maximum rating: 300W, **Incandescent lamp only.**

AM-486 2-PIN APPLIANCE MODULE	$14.95

Lets you turn appliances on and off anywhere in the house by remote control. Maximum rating: 15A resistive, 500W lamps, 1/3 H.P. motors.

SR-227 WALL RECEPTACLE MODULE	$19.95

Lets you turn lamps and appliances on and off anywhere in the house by remote control. Maximum rating: 15A unconditional.

WS-467 WALL SWITCH MODULE	$14.95

Lets you turn any wall switch operated lights on or off anywhere in the house. Even dim or brighten them. Maximum rating: 500W, **Incandescent lights only.**

HEAVY DUTY APPLIANCE MODULES

MODEL HD-243 220V

OUR PRICE $29.95

Split Phase Systems Only.
Maximum rating: 15A unconditional

MODEL HD-245 220V

OUR PRICE $29.95

Split Phase Systems Only.
Maximum rating: 20A unconditional

BURGLAR ALARM INTERFACE/CONTROLLER

MODEL BA-284 OUR PRICE $39.00

DESCRIPTION

Connects to dry contact closure or low voltage output terminals in burglar alarm control box equipped with such terminals. When burglar alarm system is activated. BA-284 Interface/Controller transmits one of the three following signals: All lights on, All lights flashing, or All lights on plus selected appliance module on.

MINI CONTROLLER

It's A Timer, An Alarm Clock and an AM/FM Radio!

MODEL CR-512 OUR PRICE $49.00

You can program it to turn on lights automatically to give your home that lived in look while away. Use it as a clock radio to wake you up, turn on a bedside lamp and have your coffee ready when you get up.

FEATURES

- Just plug it in - no wiring necessary. It sends signals through existing house wiring to X-10 Powerhouse modules.
- Has battery back-up for up to 48 hrs.
- Can be programmed to control up to 4 X-10 Powerhouse modules automatically, up to 2 on times and 2 off times for each module.
- Can be programmed in the "Security" mode which will vary programmed time each day, within the hr
- You can control up to 8 X-10 Powerhouse modules instantly. Has "All Lights On" button.
- Dim/brighten lights connected of lamp and wall switch modules.
- Has a built-in alarm buzzer and AM/FM radio with snooze feature and headphone jack.

RCA SECURITY SWITCH

Motion-Sensing Light Device

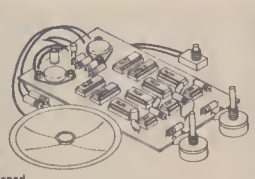
MODEL C-23

OUR PRICE $39.50

Don't stumble in a dark room again. Now you can turn any single wall switch in your home into an advanced motion-detecting light switch. The SecuritySwitch "sees" you approaching...and turns on the light. Automatically. Instantly. Silently.
Then it turns the lights off again, after you leave.
The SecuritySwitch responds when a heat source, such as a person, moves into its field of view. It's offers you safety, security, energy savings and hands-free convenience all around the house.
It covers an entire room up to 25 ft. from switch. Operates any incandescent light up to 300 watts. Fully electronic solid-state dependability.
UL listed.

PPG EDUCATIONAL KITS

MUSICAL HORN
NEW!
MODEL 1082
OUR PRICE $79.00



DESCRIPTION
The 1082 is designed to be used in your home, or in your van, car or boat. Comes with two song chips, La Cucaracha and Dixie. Great attention getter Operates on 12 Volts. Loud and beautifully rich sound.

LOGIC PROGE
MODEL 1005
OUR PRICE $16.00

DESCRIPTION
The PPG Logic Probe is a compact and reliable piece of test equipment to be used with all digital logic families. It gives a clear indication of HIGH OR LOW condition, indicates when a pulse is present at the point of test, and obtains power from the circuit under test. Furthermore, it is portable, easy to use, and inexpensive. It's a must for any serious electronics hobbyist or technican. Operating range - D/C to 100 Hz.

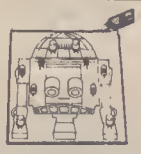
WHAT YOU WILL LEARN:
- SS5 timer. • TTL and CMOS ICs.
- Logic gates. • LED indicators.

SIREN OSCILLATOR
MODEL 1012-PPG
OUR PRICE $16.00

DESCRIPTION
The 1012 Siren/Code Oscilator is really two projects in one. With switch S3 open, the device functions as an excellent code practice oscillator. Pressing S2 produces a tone of un varying pitch. S2, in turn, could be replaced with a regular code key for serious practice. The project is also a siren. With S3 closed, pressing S2 results in a steadily rising tone from the 8-ohm speaker. When S2 is released, the tone descends in pitch. Thus you control the overall rising and falling pitch of the siren with the closing and opening of S2.

WHAT YOU WILL LEARN:
- Voltage dividers. • R/C timing circuits.
- VCOs (voltage controlled oscillators). • Amplifiers.

ROBOT BLINKER
MODEL 1014
OUR PRICE $12.00



DESCRIPTION
The LED Robot Blinker alternately flashes a pair of LEDs at a rate of about two "blinks" per second. Even though the project is a toy, there is a great deal of electronic knowledge to be gained by understanding how it works. The circuit is basically an astable multivibrator or free-running oscillator, and as such it is one of the more popular types of oscillators in use today. You'll have fun building, displaying, and learning about the LED Robot Blinker.

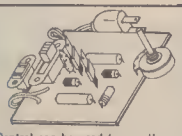
WHAT YOU WILL LEARN:
- Free-running oscillators. • R/C timing circuits.
- Switching transistors. • LEDs.

12-VOLT COLOR ORGAN
MODEL 1042-PPG
OUR PRICE $26.00

DESCRIPTION
The 12-Volt Color Organ is ideal for use with 12-volt battery systems; the kind found in automobiles and vans. The display is dramatic and exciting. Each channel responds to a particular range of audio frequencies, designated low, mid, and high. The light for each channel can be painted different colors with the type of paint used for stained glass windows. It is readily available commercially.

WHAT YOU WILL LEARN:
- Audio transformers. • Filter Networks.
- Switching transistors. • Voltage dividers.

FULL-WAVE MOTOR SPEED CONTROL
MODEL 1062
OUR PRICE $15.00



DESCRIPTION
The Full-Wave Motor Speed Control can be used to vary the speed of a hand drill or other small "brush" type motor. It also makes an excellent lamp dimmer. Since it uses a full-wave circuit, the power variation will be from 0% to 98%, that is the motor or light may be regulated from a completely off condition, to 98% of its maximum speed or brightness. The load limit is 200 watts.

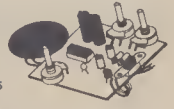
WHAT YOU WILL LEARN:
- SCRs (silicon controlled rectifiers). • Rectification.
- Neon bulbs. • R/C timing circuits. • Power curves.

DIGITAL DICE
MODEL 1068
OUR PRICE $19.95

DESCRIPTION
The Digital Dice is a fun game to play at home or in your car on a long trip. When the player pushes S1 the LEDs display one of the six combinations of the dice.
To make an interesting display increase Ct to 100mfd. and short switch S1. It will attract attention and make a good conversation piece. Also, this project looks good if you put a piece of red plastic over the LEDs.
The Digital Dice can be operated by four 1-1/2 volt batteries or by the EKI model 830 (1030) power supply.

WHAT YOU WILL LEARN:
- Logic gates. • Binary numbers. • Clock circuitry.
- Presentable binary counters. • Decoder circuitry.

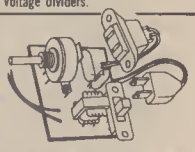
DIGITAL BIRD
MODEL 1078-PPG
OUR PRICE $17.90



DESCRIPTION
There are all kinds of birds in this world, singing all kinds of songs. But neither you nor they have probably heard anything quite like this. The 1078 Digital Bird produces sounds from a "tweeting" canary to a silly chicken, all with he turn of a few pots. It's fun unusual and entertaining. Moreover, the 1078 is a good introduction to sound synthesis; and a knowledge of that could lead you in many exciting directions.

WHAT YOU WILL LEARN:
- Oscillators. • Logic circuits.
- Transistor amplifiers. • Voltage dividers.

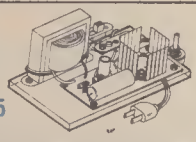
ONE CHANNEL COLOR ORGAN
MODEL 1022
OUR PRICE $15.00



DESCRIPTION
The One Channel Color Organ gives a dramatic effect by flashing a light, or string of lights, to the sound of music. Any FM radio, stereo, phonograph or tape player can be used as a signal source; one just connects the output (speaker leads) directly to the color organ. Up to 150 watts of light, usually in the form of a string of Christmas bulbs, may be employed. That means over 20 bulbs may be placed in a simple enclosure for a truly exciting display.

WHAT YOU WILL LEARN:
- SCRs (silicon controlled rectifiers. • Audio transformers.
- Voltage dividers. • Neon bulbs.

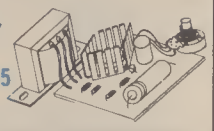
5-24 VOLT REGULATED POWER SUPPLY
MODEL 1060
OUR PRICE $39.95



DESCRIPTION
The 5-24 Volt Regulated Power Supply is just what you need to meet the wide range of power requirements necessary for experimenting, project building, and electronics repair. It provides a fully-regulated voltage at up to 1 ampere over the complete range, 5-24 volts. The 1060 is also "short-out" proof and thermal protected. It is an ideal variable power supply that no electronic hobbyist or repair person should be without.

WHAT YOU WILL LEARN:
- Power transformers. • Rectification.
- Voltage regulation. • Voltage dividers. • Filtering.

0-15 VOLT POWER SUPPLY
MODEL 1030
OUR PRICE $29.95



DESCRIPTION
The 1030 is one of the most useful, low cost, transistor regulated power supplies an experimenter can build. It will supply voltages with the necessary current to run transistor radios, portable tape recorders, electronic games, and a host of PPG projects. The 1030 is a very reliable variable power supply that will give you many years of good service. (300 ma max. output)

WHAT YOU WILL LEARN:
- Rectification. • Transformer action.
- Filtering. • Voltage regulation.

9-VOLT POWER SUPPLY
OUR PRICE $18.95

DESCRIPTION
This handy little power supply is designed to supply 9-volts DC to a host of projects from portable radios to burglar alarms and LED electronic games. Output current is limited to approximately 25mA. The 1028 can also be used to charge 9-volt batteries.

WHAT YOU WILL LEARN: • Voltage dividers.
- Rectification. • Filtering. • Capacitance.

SPACE WAR GUN
MODEL 1003
OUR PRICE $17.95

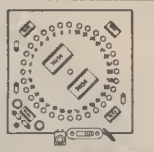
DESCRIPTION
The Space War Gun gives you those realistic sight and sound effects you expect from such a "weapon" at a super low cost. The "gun" can be placed in a rapid-fire or stun (one-shot) mode. In either position two LEDs give a visual indication of impulse frequency while a 8-ohm speaker transmits the audio tone. In both modes a potentiometer allows for quick and easy adjustment of output pitch, or firing rate.
In the rapid-fire mode switch S2 remains closed while the pressing of S1 generates the "rapid fire". In the "stun" condition, S2 is left open and the pressing of S1 produces the output tone.

WHAT YOU WILL LEARN:
- Clock circuitry. • 555 and 556 timer circuits.
- R/C timing circuits. • VCOs (voltage controlled oscillators).

NERVE TESTER
MODEL 1070
OUR PRICE $15.00

DESCRIPTION
The Nerve Tester is actually two projects in one; both designed to test your ability to remain calm or your "steady-hand" state. One circuit will indicate failure by turning on an LED, the other by giving forth a mild shock. Switch S2 allows you to choose either circuit.
To use, switch S2 to the "A" position. Next, while holding the double-sided circuit board in your hand, try to insert the probe into holes in the metal plate without touching the plate itself. If you touch the metal plate with the probe, the LED will come on and stay on until reset by S1. To use as a shocker or nerve tester, switch S2 to the "B" position and hold the circuit board such that at least one finger is firmly against each copper surface.
This time, instead of the LED going on, the user will receive a shock. The magnitude of the shock may be adjusted by turning R3 up or down.

DIGITAL ROULETTE
MODEL 1058-PPG
OUR PRICE $45.00



DESCRIPTION
The Digital Roulette will be a sure winner with you, your friends and your relatives. Thirty-two LEDs are arranged in a five-inch circle. When switch S2 is pressed, the LEDs light in sequence—one after another. When S2 is released, the LEDs continue to "rotate" until, a few seconds later, one "stops." The LED in the center comes on every other revolution, adding a bit of excitement to the game. Great for in the home, school, or car. Runs on four 1-1/2 volt "D" cells, or model 830 (1030) power supply.

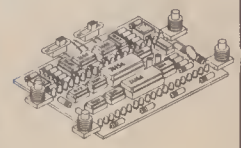
WHAT YOU WILL LEARN:
- Clock circuitry. • Binary numbers.
- Logic gates. • Flip-flops. • Data distributions.

6-DIGIT DIGITAL CLOCK
MODEL 1076
OUR PRICE $59.90

DESCRIPTION
Digital clocks have come along way in the past few years. The first ones had dozens of transistors, two or three ICs and were very expensive. Today, things are a bit different. The PPG Six Digit Digital Clock uses the popular and readily available 5314 chip. Within this large-scale IC is the equivalent of over 450 transistors. It is a true wonder of modern solid-state technology.
The 1076 has many special features such as: 50Hz or 60Hz timebase operation, 12 or 24 hour mode, slow/fast/hold buttons for easy setting, seconds display, color LEDs to separate hours and minutes, and finally bright seven-segment LED displays. This is a clock you will be proud to build and own.

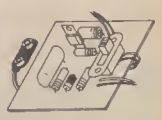
WHAT YOU WILL LEARN:
- Switching transistors • Power transformers • Rectification
- 7-segment displays. • LSI (large scale integration) ICs.

ELECTRONIC TENNIS
MODEL 1056
OUR PRICE $79.00



DESCRIPTION
Play fast action "doubles" with just one finger. Designed for two players; one on each side of the net. This is a very unique IC controlled game.

BURGLAR ALARM
MODEL 1006
OUR PRICE $12.00



DESCRIPTION
The 1006 Dual Burglar Alarm is designed to be used with normally open (S3) and normally closed (S2) switches. If, after the alarm is set, (closing S1) the normally closed switch is opened or the normally open switch is closed, the alarm device will sound. It will remain on even if switches S2 and S3 are reset. The only way to turn off the alarm is to open S1. S1 could be a key switch if you prefer. Many types of connections could be used for the N/O and N/C switches. Thumb tacks reed switches, magnetic switches, or security foil are just a few suggestions. And by placing N/C switches in series and N/O switches in parellel, an almost infinite number of areas can be protected. Comes complete with a large 9-volt buzzer.

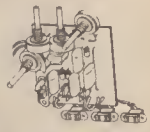
WHAT YOU WILL LEARN:
- SCR (silicon controlled rectifier).
- Diode operation. • Alarm devices.

DIGITAL SLOT MACHINE
MODEL 1066
OUR PRICE $60.00

DESCRIPTION
The slot machine consists of three seven-segment LED readouts that are made to display a "C" for cherry, an "L" for lemon, an "O" for orange and an "A" for apple. When all three readouts come up with the same letter, four "win" LEDs flash at a 4Hz rate. Pressing the roll button causes all three readouts to cycle very rapidly. When the button is released the left most readout stops first, then the center one, and finally the readout on the right. This creates an added suspense. The odds of getting all readouts to display the same letter, and thus win the jackpot, are one in 64.

WHAT YOU WILL LEARN:
- Binary numbers. • Logic gates. • Flip-flops.
- Clock circuitry. • 7-segment display circuitry.

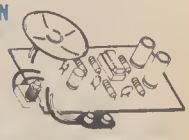
3 CHANNEL, 4 CONTROL COLOR ORGAN
MODEL 1036
OUR PRICE $27.95



DESCRIPTION
The 3-Channel Color Organ gives a dramatic effect by flashing three strings of light (each one a different color) to the sound of music. Each string responds to its own frequency range; one for the low or bass, another for the mid-range, and a third for the high or treble frequencies. Any FM radio, stereo, phonograph, or tape player can be used as a signal source; one just connects the output, (speaker leads) directly to the color organ. Up to 150 watts of light per channel may be used. That is over 20 Christmas lights for each channel, or 60 bulbs in all. When enclosed behind a light diffusing piece of plastic, the display can be very impressive.

WHAT YOU WILL LEARN:
- SCRs (silicon controlled rectifiers). • Audio transformers.
- Voltage dividers. • Neon bulbs. • Filter networks.

AUTOMATIC SIREN (or code practive osillator)
MODEL 1024
OUR PRICE $17.95



DESCRIPTION
Here it is at last—an automatic siren that definitely sounds like the real thing. When switch S1 is closed the siren continuously cycles through the complete high-low oscillation pattern. There is no need to open a switch at the "critical" moment to cause the sound to decay. In addition there are no components to adjust or alter. Put the circuit together, connect a 9-volt battery, turn it on, and you're in business. The output is surprisingly loud and piercing. Use it with a burglar alarm, as an attention getter, or for just plain fun. In any event, the 1024 will give you hours of excitment and satisfaction. Can also be used as a code practice oscillator by removing one jumber wire.

VARIABLE STROBE LIGHT
MODEL 1040
OUR PRICE $26.00

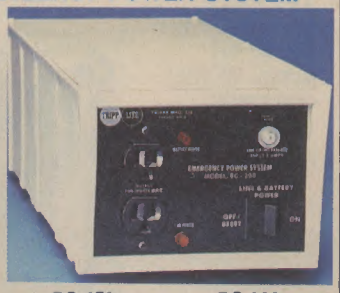
DESCRIPTION
The 1040 is an excellent strobe light that produces a very high intensity, white light for short durations. The speed or flash rate can be varied from one to two per minute to twelve or more per second. It comes with a 5-watt flash-tube which can be used for many hours, even with continuous use. The project can also be converted into a manual strobe for use with camera equipment, etc. The 1040 has many safety and special effects applications. Use it for "stop motion effect" like old-time movies, etc. Great for parties and special effects photography.

WHAT YOU WILL LEARN:
- Voltage doubler circuits. • Trigger transformers.
- Neon bulbs. • SCRs (silicon controlled rectifiers).

CALL US MONDAY THRU FRIDAY 8:00 AM to 6:30 PM • SATURDAY 9:00 AM to 3:00 PM E.S.T.

TRIPP LITE BC SERIES: EMERGENCY POWER SYSTEM

BC-1200



BC-450 BC-200

DESCRIPTION
BC SERIES: These Emergency Power Systems include a self contained, maintenance-free gel cell battery, DC to AC inverter, regulated battery charger and automatic (10 millisecond) transfer switch in an attractive desk top housing. Each Power System is shipped ready to plug into the wall end use. No installation or assembly is required. An audible alarm permits the operator to start an orderly shut down, and the size of the battery providee adequate time to insure that these procedures can be completed. Once power is restored, the reguleted battery cherger eutomatically starts restoring the battery to full power.
CAUTION: These models are not suitable for long term operation during power failures.

MODEL BC-1200 OUR PRICE $995.00

Completely self-contained 1200 watt emergency power system with its own built-in 55 ampere hour battery. Also features an audible warning signal when power has failed and frequency-control for constant 60Hz (±1/2 Hz) output, suitable for more sensitive electronic equipment.

Wattage: 1200 W. **Output voltage:** 120V, AC 60 Hz ±1/2 Hz. **Input voltage:** 12V. **Back-up power time:**

LOAD	TIME
1200 watts	16 minutes
750 watts	21 minutes
500 watts	38 minutes
300 watts	90 minutes

MODEL BC-450 OUR PRICE $499.95

Completely self-contained 450 watt emergency power system with its own built-in 28 ampere hour battery. Also features an audible warning signal when power has failed and frequency-control for constant 60 Hz (±1/2 Hz) output, sutitable for more sensitive electronic equipment.

Wattage: 450 W. **Output voltage:** 120V, AC 60 Hz ±1/2 Hz. **Back-up power time:**

LOAD	TIME
450 watts	10 minutea
240 watts	30 minutes
160 watts	50 minutes
80 watts	120 minutes

MODEL BC-200

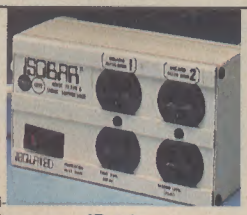
OUR PRICE $299.95

Completely self-contained 200 watt emergency watt system with its own built-in battery. No installation required. BC plugs into wall and equipment to be protected plug into BC.

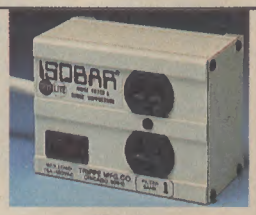
Wattage: 200 W. **Output voltage:** 120V, AC 60 Hz. **Back-up power time:**

LOAD	TIME 10A hr. standard battery
200 watts	10 minutes
100 watts	30 minutes
50 watts	60 minutes

ISOBAR® NOISE FILTER AND SURGE SUPPRESSORS



IB-4-6



IB-2-6

IB-2-0

IB-8-15

DESCRIPTION
High Voltage Spike Protection: Handles up to 13,000 amp spikes. Starts suppressing spikes at 140 volts AC RMS. 70-Watt-second capacity. High Voltage spike protection works between ground and neutral, neutral and hot, and hot and ground.
Tranelent Response Time: Less than 5 nanoseconds. Transient amplitude reduction occurs taster than the clamp response of the veristors because ot the high rejection rate ot the Isobar filter networks.
High Frequency Noise Suppression: > 30 db @ 50kHz. > 40db @ 150kHz. > 80db @1MHz. > 30db from 6MHz to 1000MHz

TRIPP LITE EMERGENCY POWER SYSTEMS

POWER OUTAGE SOLUTIONS! Batteries Not Included

MODEL SB-200
OUR PRICE $239.95
MODEL SB-400
OUR PRICE $349.95
MODEL SB-1000FC
OUR PRICE $699.95

FEATURES Each Unit Includes:
- Automatic, heavy duty, regulated battery charger for trouble-free recharging after a power failure
- Automatic load transfer switch, for uninterrupted power when your line voltage fails, as fast as 10ms
- Rugged rectangular wave form, DC to AC inverter for reliable AC power
- Circuit breaker and/or fuse on the DC line to protect equipment from overload
- Status indicating power lights to indicate presence of line power or battery power.
- Multiple receptacles to handle all your power needs.
- Frequency controlled 60 Hz ± ½ Hz (except for models SB-200 & SB-400)

DESCRIPTION
During normel conditiona, line power feeds directly through the transfer relay to the load being powered. It also flows to the battery charger circuit, which converts high voltage AC to regulated low voltage DC. This control circuit monitors the battery cherger, end cuts off the cherge current when the battery is fully charged, thus minimizing premature battery aging and water loss. It will also shut down the entire system when the battery drops to 10V (in a 12V system, or 20V in a 24V system), thus preventing damage to bettery through over discherge. These SB models are designed for a variety of applications, such as telephones, computers, paging systema, and answering systems. Batteries are not included.

TRIPP LITE LINE STABILIZERS/CONDITIONERS

Voltage Regulation and ISOBAR® Surge Protection

MODEL LS-600
OUR PRICE $119.00
MODEL LC-1200
OUR PRICE $199.00
MODEL LC-1800
OUR PRICE $289.00

Protect your equipment and data by maintaining a constant power level during brownout and power surges. Line stabilizers automatically adjust varying input voltage to parovide full support during a low voltage conidition. In addition, all units contain spike and line noise filtering. Models LC-1200 and LC-1800 feature full isobar protection.

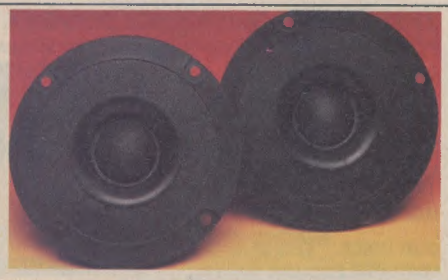
SPEAKERS & AUDIO ACCESSORIES

1" SOFT DOME TWEETER

MODEL TW-16

OUR PRICE

$26.90 per pair



FEATURES
- 1" Soft Dome Tweeter.
- High Compliance.
- 20 oz. Circuit Magnet.
- 1" Aluminum Voice Coil.
- 4 Ohm Impedance.
- 50 Watts RMS.
- 120 Watts Peak.
- Frequency Response: 4K-20KHz.

SUPREME 10" HIGH PERFORMANCE MUSICAL WOOFER

NEW!

MODEL W-1065 **OUR PRICE $99.00** each

- 10" ultra high power musical woofer. • 18 lbs. structure weight
- Semi-Press curvilinear molded cone. • 65 oz. vented magnet.
- Diecast aluminum frame remains rigid even under severe sound levels.
- 2½" vented polymide coated kapton voice coil with edge wound copper clad aluminum wire, able to withstand most extreme temperatures without degrigation to sound quality or operation.
- 150 watts RMS per speaker / 300 watts peak rated power.
- SPL (Sound pressure level) 110dB at 4 / 150W.
- Diameter: 10.25" / Depth: 4.85". • 8Ω load impedance.

8" POLY HIGH POWER WOOFER

MODEL W-85

OUR PRICE

$27.90 each

FEATURES
- 8" Polypropylene Woofer.
- 40 oz. Strontium Magnet.
- 1½" Aluminum Voice Coil.
- 4Ω Impedance.
- 75 Watts RMS.
- 150 Watts Peak.
- Frequency Response: 34-5000Hz.
- Comes with speaker wire, mounting screws and template.

MIXER EQUALIZER WITH ECHO

MODEL PR-6800 **OUR PRICE $199.90**

FEATURES
- 14-Band Equalizer.
- Can be used with CD.
- 2 Turntable Inputs MAG/CER.
- RCA Inputs. • 1 Monitor.
- Echo B.B.D. System.
- Echo Repeat Control.
- Delay Time Control 30/200/M/S.
- Amplifier output.
- Dual VU metering.
- Headphone impedence 4-16Ω.
- 1 Microphone input.
- 1 Record output.
- Fader control.
- 2 Tape Inputs, 2 Tuner Inputs.
- S/N Ratio >50db.
- Frequency Response: 20Hz-20KHz.
- Distortion <0.05%.
- Wood Cabinet.
- Size: 17" x 12" x 4-1/2".

BP SUPER SOUND 3-WAY HI-FI COMPONENTS SYSTEM

DESIGN YOUR OWN HOME OR AUTO SOUND SYSTEM

100 Watts X2 with Crossover Network

MODEL LS-1400 (KIT)

OUR PRICE

$79.90 per kit

This super sound component system kit lets you be the expert sound technician in your home or automobile. Create your own system and enjoy the rich full sounds of this system.

SPECIFICATIONS

Woofers: Two 4-1/4" 100-5,000 Hz. **Mid-Range:** Two 3" 700-15,00 Hz. **Tweeters:** Two 2-1/2" 2,000-20,000 Hz. **Impedance:** 4-8Ω. **Power:** 2x100 watts. **Frequency Band:** Woofer 20-1000 Hz., Mid-Range 1,000-10,000 Hz., Tweeter 10,000-20,000 Hz.

12" POLY HIGH POWER WOOFER

MODEL W-120

OUR PRICE

$56.90 each

FEATURES
- 12" Polypropylene Woofer.
- 60 oz. Strontium Magnet.
- 1½" Aluminum Voice Coil.
- 4Ω Impedance.
- 125 Watts RMS.
- 250 Watts Peak.
- Frequency Response: 25-3000Hz.
- Comes with speaker wire, mounting screws and template.

15" POLY HIGH POWER WOOFER

MODEL W-15

OUR PRICE

$79.90 each

FEATURES
- 15" Polypropylene Woofer.
- 80 oz. Strontium Magnet.
- 2" Aluminum Voice Coil.
- 4Ω Impedance.
- 150 Watts RMS.
- 300 Watts Peak.
- Frequency Response: 25-3500Hz.
- Comes with speaker wire, mounting screws and template.

STEREO MIXER EQUALIZER

MODEL PR-2700

OUR PRICE

$135.00

- 10-Band Equelizer.
- 2 Tuner inputs.
- 2 Tape Inputs.
- 2 Turntable inputs MAG/CER.
- 1 Record output.
- 1 Microphone input.
- 1 Monitor. • RCA inputs.
- Fader Control.
- Amplifier Output.
- Dual VU metering.
- Can be used with CD.
- Frequency Response: 20Hz - 20KHz.
- S/N Ratio >50dB.
- Distortion <0.05%.
- Headphone Impedance: 4-16Ω.
- Rack Mount Metal Cabinet.
- Size: 18.9"W x 9.4"D x 4.5"H.

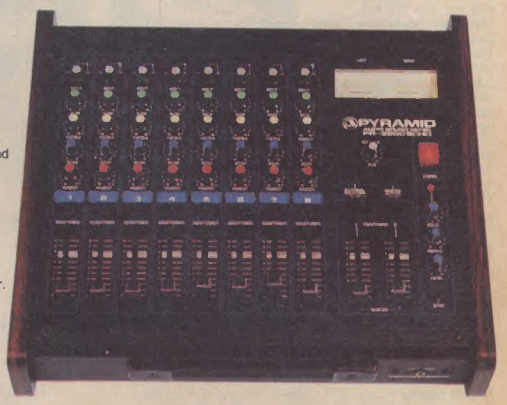
8 CHANNEL UNIVERSAL AUDIO SOUND MIXER with ECHO

MODEL PR-8800

OUR PRICE

$369.00

PR-8800 ECHO Stereo Sound Mixer is designed for an ideal combination of features and performance. This high-quality mixer has mixing and ECHO functions on eight channels and two output channels.



FEATURES
- 8 Channel mixer.
- 8 Microphone inputs.
- 3 Program stereo inputs.
- 3 Position input selector.
- Echo with individual channel control.
- External hook-up to equalizer.
- 4 Turntables inputs.
- Individual pan pots, bass & treble controls.
- 1 Stereo record output.
- 2 Extra phono outputs.
- S/N ratio >65 dB.
- Distortion <0.05%.
- Wood Base.
- Dual VU metering.
- Size: 19.20"W x 18.8"D x 4.78"H.

SPECIFICATIONS

Input Sensitivity/Impedance: Phono 3mv/47KΩ. Mic 0.3mv/600Ω. Line 150mv/47KΩ. **Rated Output/Impedance:** N/600Ω. **Distortion:** less than 0.05%. **Bass Tone Control:** 100Hz ± 12dB. **Treble Tone Control:** 10kHz ± 12dB. **Frequency Response:** Phono 30Hz-20kHz ± 2dB (RIAA). **Mic:** 30Hz- 20kHz ± 2dB. **Line:** 20Hz-30kHz ± 2dB. **Signal to Noise Ratio:** more than 65dB. **Headphone Impedance:** 4-16Ω. **Echo Delay Time:** 20ms-204ms. **Power Source:** 110V/160Hz or 220V/50Hz.

DYNAMIC LIGHTING EFFECTS

FULL FEATURED 4-CHANNEL CONTROLLER

MODEL RS-40 OUR PRICE $109.95

The RS-40 has 5 output plugs in rear, 4-three prong grounded female plugs for output to your boarder cans or lights and a connector that can fit up to 40 rope lights featured below. Each channel has an external tuse to protect internal blow outs. It can handle 1600 watts total, has forward speed control for chase and built in mic for lights to sound effect or you may use line input or even an external mic.

DELUXE CONTROLLER MODEL RL-101 OUR PRICE $79.00

Used in conjunction with up to 10 rope lights listed below. It features speed, sound and reverse.

8" MIRRORED BALL

MODEL M-800

OUR PRICE $24.00

Mirror balls are the most recognized special effect in the entertainment field today. This mirrored ball is made of highly reflective glass mirror squares hand glued to the ball surface.
Use with Pin Spots P-1001 and RS-40 to connect up to 4 mirrored balls.

Additional Sizes

Model		Price
M-1212	12" Ball	$49.00
M-1616	16" Ball	$79.00

MODEL M-AC8

OUR PRICE $14.95

Standard Motor for a single mirrored ball. AC operation.

STARLIGHT

MODEL ST-178

OUR PRICE

$109.95

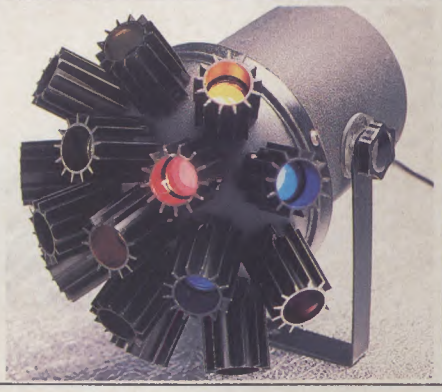
The starlight uses a 300 watt quartz lamp and creates small intense fixed beams of multi- color lights. Ideal for clubs or the serious DJ. It's ideal to be used with a controller.
A great new effect tor the dance floor.
Should be used with a blinker available at all hardware stores.

MODEL ST-180

OUR PRICE

$139.95

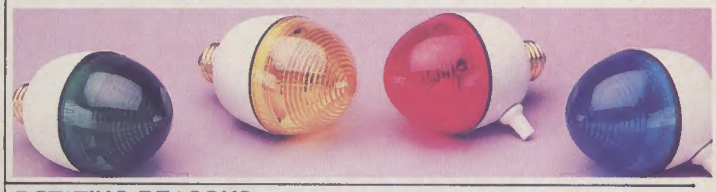
Same as the ST-178 plus oscillating teature.



VARI-SPEED EGG STROBE

MODEL S-EGG OUR PRICE $16.95 each

Available in five colors: clear, red, yellow, green, and blue. Screws into any standard base socket.



ROTATING BEACONS

Standard 8 Inch Beacon
MODEL B-801 (100 Watt)
OUR PRICE $69.95 each

Standard 6 Inch Beacon
MODEL B-501 (25 Watt)
OUR PRICE $35.00 each

These beacons come complete with break resistant high impact dome, lamps, and power cord with plug. Both models are available in these colors: red, blue, green or amber.

PIN SPOTS MODEL P-1001 OUR PRICE $32.50

Pin spots produce a brillant beam of light. The P-1001 is economical and lightweight PAR-36 narrow beam. Comes complete with lamp installed, mounting hardware, and power cord with plug. Use with RS-40 and mirrored ball. Optional color lenses: Aqua, green, pink, red, yellow, blue, orange.
Model CL-100. . **$2.95 each**

HIGH POWER VAIR-SPEED STROBE MODEL S-101 OUR PRICE $149.95

High power variable speed remote controllable strobe. Comes complete with mounting.
Remote control optional

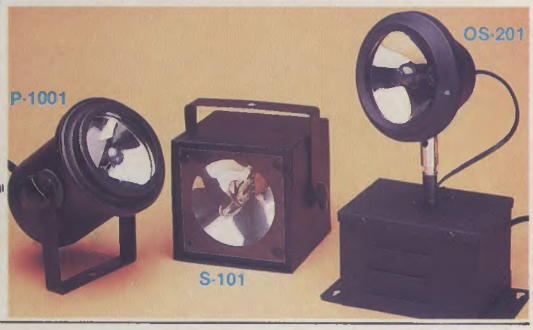
OSCILLATOR LIGHT

MODEL OS-201

OUR PRICE

$59.95

Oscillator lights pan back and forth 120° creating a moving beam of light on the walls or floor. The OS-201 is a single head and comes complete ready to plug in. Color lenses available, CL-100, see P-1001 above.



SPECIAL EFFECT ROPE LIGHTS MODEL RL-160 OUR PRICE $39.00 each

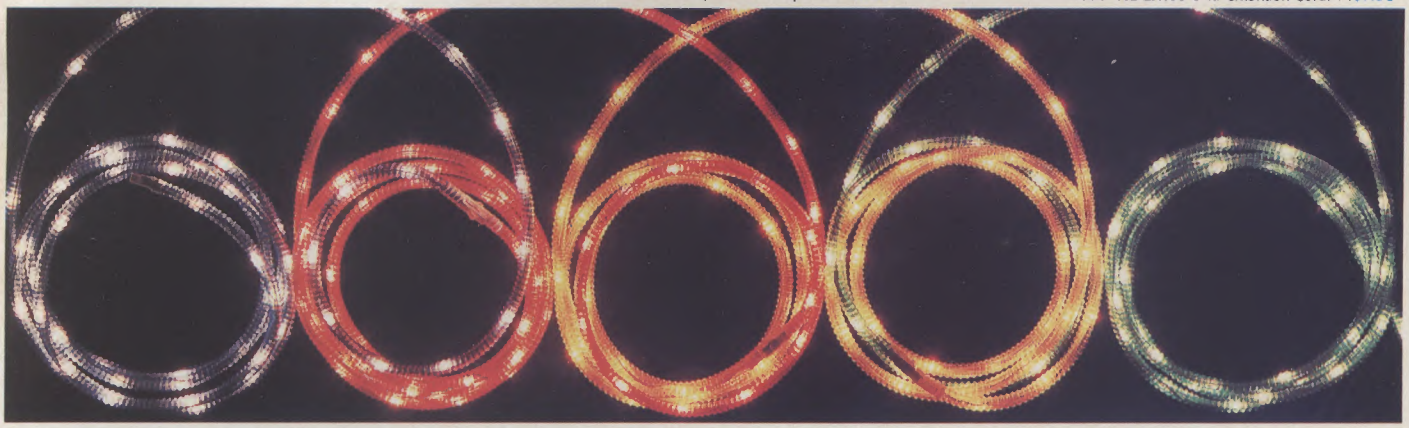
Heavy duty crush resistant rope lights are available. Each rope is 16 feet long and you may connect several together. Can be used with the RS-40 and the RL-101. Colors available Clear (not shown), Multi (clear tube with color lights in between not shown), green, yellow, red, and blue.

OPTIONAL ACCESSORIES:

Model RL-Y100 Y-Adaptor For Ropes . . . **$7.95**

Model RL-AC100 AC Adapator For Ropes . . . **$6.99**

Model RL-EX100 9 ft. extention cord. . . **$7.95**



Memorex™ Universal Remote Controls

The CP-4 does the job of four differenct remotes. It learns the functions of your existing infrared remote controls for TVs, VCRs, Cable TV, etc., regardless of manufacturer. It is easy to program and easy to use. It operates on 4 'AAA' alkaline batteries.

MODEL CP-4 **OUR PRICE $49.95 NEW!**

The CP-8 Combines all your current remote controls (up to 8) into one!
This simplies operation of your home audio and video equipment. Its unique sequence, clock and timer features set it apart from any other universal remote controls in its category. The sequence feature enables the user to preset the steps needed for equipment switching and mode selection. With the built-in clock and five timers enables operation of any of the sequences unattended. Other features include: large LCD display, power booster, memory backk-up, write-on key pad label and an extended operating range. It operates on 4 "AA" alkaline batteries. East to program. Easy to use.

MODEL CP-8 **OUR PRICE $79.95 NEW!**

COBRA SSB MOBILE

The 148GTL is a no compromise, precision AM/SSB mobile unit for the discriminating citizen's band operator who demands maximum performance. Features: DynaMike, Volume, ON/OFF control, Squelch, RF gain, SWR CAL control, Voice Lock, S/RF/CAL/SWR switch, LSB/AM/USB mode switch, switchable automatic noise limiting and noise blanking, CB/PA switch, HI/LOW tone switch, meter and LED brightness control, channel selector, LED display, receive and transmit indicator, illuminated S/RF/SWR meter, PA and external speaker outputs, maximum legal power plus plug-in mike and brackets. Size: 2-3/8"H x 7-7/8"W x 9-1/4"D.

MODEL 148GTL **REG. $269.95** **$169.95** ***EXTRA SPECIAL!***
